

The background is a vibrant, abstract collage of various wine glasses and bottles. The shapes are simplified and bold, rendered in a palette of bright colors including magenta, cyan, yellow, and lime green. The edges of the shapes are slightly irregular, giving it a hand-drawn or painted feel. The glasses and bottles are arranged in a dense, overlapping manner, filling the entire frame.

Welcome

www.gwkent.com

TERMS & PRICES

- Upon credit approval, our terms are net 10 days from date of invoice. We accept credit cards. Wire transfer & prepay check required for order \$5000.00 and up.
- **Minimum order of \$50.00 is required.**
- All prices are FOB Michigan Warehouse.
- **Prices in print catalog are subject to change without notice. Prices will be updated online.**

- All information and specifications in this catalog puts forth in good faith but makes no guarantee, expressed or implied, concerning the use or misuse of the products or data listed.

BUSINESS HOURS

Monday - Friday	9am - 5pm (Eastern Time)
Holiday Closing	All Major holidays Please see posting on www.gwkent.com

SHIPPING

We use Fedex service and common carrier trucking. We will determine carriers based on trucking requirement, price and commodities. Freight charges are prepaid and billed on your invoice.

CUSTOMER PICK UP

- Please allow 24 hours of order processing time for pick up

Dock Hours **9am - 4pm** **Monday - Friday**

DAMAGE OR LOSS CLAIMS

- **Any discrepancy or damages must be noted on freight bill** and signed by driver at the time of delivery so trucking company will honor the claim.
- We will not be responsible for any damage or loss if a freight bill does not note damages or shortage with signature from driver.

RETURNS

- We will email a Return Authorization form to you. **Return Authorization must accompany product return.** To request a return, please email us.
- Merchandise must be less than 30 days old from date of invoice and brand new in original packaging.
- **Returned merchandise subject to 25% re-stocking charge and freight expenses.**

- Machinery, tanks, pumps and barrels are subject to manufacturer's warranty and repair policy, we cannot accept returns for above mentioned products.

Filtration

Lenticular Filter Housing

Lenticular filter system is as versatile as filter sheet in plate & frame filter but sanitary, easy to use and easy to change out. To make a filter system sanitary, filter sheet is installed in an enclosed sealed filter housing. Lenticular filter is expandable and cost comparable to plate & frame filter. These filter sheets are constructed in a modular design and can easily be inserted into filter housing. It's possible to back flush the modules and reuse them many times. The modules can be stored in the housing for extended periods of time, which aids in space saving. Another advantage is extremely low product losses. A 12" module 4 high system is equivalent to forty five 40 x 40 filter sheets.

Features:

- Material in 316 L. stainless steel, sanitary construction with electro polish.
- Equipped with sanitary pressure gauge, sight glass, two butterfly valves and fittings.
- Venting valve and drain included with housing.
- Filter Modules are not included

12" Housing	Filtration surface	Dia. x Height	SKU	Price
2 module Lenticular Filter Housing 12"	3.6 sq. meter	15.7" x 48"	3450-2	\$3295.00
3 module Lenticular Filter Housing 12"	5.4 sq. meter	15.7" x 58"	3450-3	\$3695.00
4 module Lenticular Filter Housing 12"	7.2 sq. meter	15.7" x 60"	3450-4	\$3995.00

16" Housing	Filtration surface	Dia x Height	SKU	Price
2 module Lenticular Filter Housing 16"	10.0 sq. meter	17.7" x 48"	3451-2	\$4095.00
3 module Lenticular Filter Housing 16"	15.0 sq. meter	17.7" x 58"	3451-3	\$4595.00
4 module Lenticular Filter Housing 16"	20.0 sq. meter	17.7" x 69"	3451-4	\$4995.00

www.gwkent.com

Backflush for Lenticular Filter Module

Backflush is effective for the removal of hard and non-deformable contaminants that cake on the filter. Backflush can be performed when the differential pressure reaches 50% of recommended change out differential pressure. Backflush increases filter service life and economic value of filter.

Procedure:

- Backflush with clean, ambient temperature water at half operating flow rate at 5 psi of pressure (take it slow and easy)
- Increase water temperature to 120 - 140 F. while forward flowing for 10 minutes.
- Stop flow and soak in warm water for 10 minutes, then restart forward flow using ambient temperature water for 10 minutes.
- Drain water out of housing.

BECOPAD Lenticular Filter Modules

Advantages:

- Backwashable, backwashing can increase filter service life by 40-70%
- Flat Gasket connection
- Mineral-free, therefore low ion content
- 20 % higher performance, maximum purity
- Reduced pre-rinse volumes
- Increased strength of the depth filter media used
- Rinsing volume reduced by 50 %, resulting in reduced process costs
- Very good chemical and mechanical resistance
- Low charge-related adsorption
- Virtually no ash content, therefore optimum ashing
- No undesirable effects to the product

Item	Diameter	Particle Retention	Application	End Connection	SKU	Price

Pall SUPRAdisc II Filter Modules

Benefits of Supradisc II Module:

- Reduced filtration cost, backwashable.
- Longer service life, increase of flow rate.
- Low differential pressures
- Reliable handling, better venting and draining.
- No cell deformities after heat treatment.

Item	Particle Retention	End Connection	SKU	Price

Proline Plate & Frame Filter

Superior quality 40 x 40 cm plate & frame filter, sanitary designed and constructed.

Specifications:

- Made of 304 stainless steel with Noril plates which are steam sterilizable.
- Three large view sight glasses with pressure gauges and sample valves.
- Three 1-1/2" butterfly valves and 3 piping design for better liquid flow.
- Large drip tray with ball valve for liquid recovery.
- Double filtration divider plate is installed on filter and included in price.
- Complete set up without pump, operation manual included.

Item	No. of Plate	Divider Plate	Pump	Size	SKU	Price
20 Plate Proline Plate & Frame Filter 40x40 cm	20	Included	No	40 x 40 cm	3410	\$4,695.00

Pico Jolly Plate & Frame Filter

Small filter, comes with 30 plates, size 20 x 20 cm. (8" square).

- Equipped with Noril filter plates that are steam sterilizable.
- Includes a 1/2 h.p. centrifugal pump, 110 V. 60 Hz.
- with 1-1/2" TC connection.
- Maximum pressure is 45 psi.
- Stainless steel frame on wheels, filters up to 300 gallons per hour.
- Double filtration divider plate included.
- Overall size: 34" L x 20" W x 26" H.

Item	SKU	Price
Pico Filter 20 x 20 cm Plate & Frame	3406	\$1,995.00

Membrane Filter Housing

Pro-Line sanitary membrane filter housing for sterile filtration prior to bottling. Superior material and sanitary construction meets stringent beverage sterile filtration applications. Unsurpassed quality with great price. Complete set up, filter cartridge sold separately.

Features:

- Made of 316L stainless steel, electropolished
- Equipped with sanitary pressure gauge 1-1/2" TC
- Two butterfly valves and fittings are included with filter
- Equipped with two plunger valves for air bleed off
- Maximum Operating pressure 100 psi (67 F)
- Fitted for code 7, 226 o-ring filter cartridge
- Filter housing has three stainless steel legs
- Triple to 12 cartridge housing with swing bolt design on base.
- Sterilization using in-line steam, autoclave or hot water

Steam/Gas Membrane Filter Housing

Sanitary membrane filter housing for steam and gas applications.

Features:

- Made of 316 L. stainless steel, electropolished.
- Inlet and outlet 1-1/2" TC.
- 1/4" NPT male connection on top and 1/4" NPT female on bottom.
- Maximum Operating pressure 150 psi @67° F
- Valve and fitting is not included, please order separately.

Item	Connection	SKU	Price
5" Steam / Gas Filter Houseing	1.5" TC inlet & outlet	3452-1	\$495.00
10" Steam / Gas Filter Housing	1.5" TC Inlet & outlet	3452-2	\$595.00

10" Sinterflow Steam / Gas Filter	Code 7, 226 o-ring	3452-5	\$349.00

Filter Cartridges

Beverage grade filter cartridge designed for beer, wine, bottled water and beverage pre-sterile and sterile filtration. To ensure microbial stability while maintaining quality, clarity, flavor and aroma. All filter cartridges have high dirt-loading capacity and wide chemical compatibility, produced in a state of the art clean room facility to meet demanding beverage industry requirements. Filter cartridges are re-usable, sterilizable with autoclave at 126 C. for one hour or in hot water 203 F. for 10 minutes and should be bubble point tested. Filtration area is 8.4 sq. ft. per 10 inch cartridge. Recommended change-out pressure for disposal is 35 psi.

** 10% discount apply to purchase of case quantity of 12 cartridge.*

Item	Length	Particle Retention	Connection	SKU	Price
Pall/SEITZ 30" MEMBRACart PSII Filter Cartridges	30"	0.45 micron	P7, 226 o-ring	3471-1	\$425.00
Pall/SEITZ 30" PREcart PPII Filter Cartridge	30"	1 micron	P7, 226 o-ring	3472-1	\$295.00

Sanitation & Sterilization Guide for Polyethersulfone Membrane

1. Forward flow with cold water at 8 gpm per 10" of membrane cartridge length.
 2. Forward flow with hot water up to 175 F at 4 gpm per 10" of membrane cartridge length.
 3. Soak overnight in 5% caustic solution.
 4. After soaking remove membrane cartridges and hose down with tap water.
 5. Soak in acid solution with pH below 2.0 for at least 1 hour.
 6. Remove cartridge and hose down with tap water. Install cartridges in the housing.
- (Caution: Handling solution in caustic and acid requires rubber gloves, rubber apron and full shieldfor protection.)

Sterilizing & Sanitizing Agents

Filter hot water	190°	30 minutes cycle
In-line Steam	270°	30 minutes cycle

Chemical Sanitization

Hydrogen Peroxide	15% - 20% concentration, 30 minutes cycle.
Ethanol	80% concentration, 30 minutes cycle.
Peroxyacetic acid	1% - 2% concentration, 30 minutes cycle.

Storage

Sodium Hydroxide	0.5% - 1% concentration
Ethanol	80% concentration

BECOPAD Filter Sheets

Premium Mineral-free depth filter media

Price listed is per box of 100 filter sheet.

10% discount apply to purchase of pallet quantity of 24 case.

Advantages:

- Maximum purity
- Mineral-free, therefore low ion content
- 20 % higher performance. Reduced pre-rinse volumes
- Increased strength of the depth filter media used versus conventional depth filter sheets
- Rinsing volume reduced by 50 %, resulting in reduced costs
- Very good chemical and mechanical resistance
- Low charge-related adsorption
- Virtually no ash content, therefore optimum ashing
- No undesirable effects to the product

Item	gpm/sq. ft.	Particle Retention	Application	Size	SKU	Price
BECOPAD 580 Filter Sheets	87.6	3 - 4 micron	Medium	40 x 40 cm	344-580	\$230.00
BECOPAD 550 Filter Sheets	17.2	2 - 3 micron	Medium	40 x 40 cm	344-550	\$230.00
BECOPAD 450 Filter Sheets	7.4	1 - 2 micron	Fine	40 x 40 cm	344-450	\$248.00
BECOPAD 350 Filter Sheets	3.9	0.7 - 1 micron	Fine	40 x 40 cm	344-350	\$278.00
BECOPAD 270 Filter Sheets	3.3	0.5 - 0.7 micron	Fine	40 x 40 cm	344-270	\$292.00

BECOPAD 170 Filter Sheets	1.9	0.2 - 0.4 micron	Sterile	40 x 40 cm	344-170	\$350.00
BECOPAD 120 Filter Sheets	1.3	0.1 - 0.3 micron	Sterile	40 x 40 c-m	344-120	\$400.00

Filter Sheet Rinsing & Sterilization

1. Hot water sterilization for 20 minutes at 180 F prior to use.
 2. Suggested sanitizers:
 - Sulfur Dioxide @ 1000 ppm
 - 5% citric acid solution
 - Phosphoric Acid solution 0.1 -0.2%, pH 2.0
- Avoid ozone or chlorinated chemicals.

For successful filtrations, it's important to maintain consistent flow and pressure throughout filtration. Select proper grades for specific purposes, and do not mix grades within a single filtration without a divider plate. To backflush use only clean water below 120 F. It's important filter sheets are properly oriented in filter with rough side facing inlet plates and smooth side facing outlet plates.

Pall Filter Sheets

Depth filters basically is a maze-like, extremely fine three-dimensional sieve with huge number of branched micro channels. They form a structure with a void volume of 70 - 85% of the total volume of the depth filter. This is indicative of the high dirt holding capacity, amount to almost 4 L/sq. m. of filter area. Pall/Seitz special manufacturing process provides a highly permeable void volume with a characteristic, very high dirt holding capacity. As a result the progressive differential pressure increase during filtration is slow, and the tendency for spontaneous blocking is practically eliminated. Pall / Seitz has been the leading supplier in the beverage industry providing the best in depth filtration. High wet strength, superior throughput capacity and excellent retention capabilities to remove micron and sub-micron particulates, like haze, yeast, bacteria and colloids yet preserves color, aromas and flavors.

Micro Clear Activated Carbon Filter Sheets

Filter sheets are made of blend of filter aids and cellulose fibers with activated carbon to provide controlled filtration, decolorization and deodorization. Size 40 x 40 cm and micron rating 5 micron. Pack 100 per box.

SKU 3484-1 \$439.00

Sil-Kleer Filter Media

A unique filter aid made from volcanic rock with stringently controlled process of removing grit and other foreign substances. The resulting filter aid is an extreme pure, inert, white, light weight material having a unique interlocking structure with myriads of microscopic channels. It affords optimum flow rate and sparkling clarity and does not impart taste, odor or color to filtered liquids. Sil-Kleer offers twice as much filtration, pound for pound, than diatomaceous earth. Sil-Kleer is safe, contains less than 0.1% silica (almost none) compared to D.E. with up to 60% silica. Sil-Kleer can be easily disposed of, a non-hazardous waste. Ship via LTL common carrier.

Item	Grade	Weight	SKU	Price
Sil-Kleer 27-M Filter Media	Fine filtration	40 lb.	3445	\$17.50
Sil-Kleer 23-S Filter Media	Coarse filtration	34 lb.	3446	\$17.50

Stainless Steel Tank

Supreme Variable Capacity Flat Bottom Tank

Supreme quality stainless steel materials, accessories and sanitary construction details. Top quality tank with all desired features at affordable price.

Special features:

- Racking port with reinforcing plate, tank include premium 1-1/2" TC butterfly valve & fitting.
- Reinforcing stainless steel bar on rim
- Premium grade 304L stainless steel exterior marble finish, mirror polish EZclean interior
- Inflatable vinyl gaskets & all parts complete
- Supreme lid with 3" neck extension for air vent

GW Kent butterfly valve with stainless steel handle included with tank, best in the industry.

Supreme Tank Conical Bottom without Cooling Jacket

Special features:

- 304 stainless steel materials, exterior with marble finish and interior with mirror polish
- Conical bottom with discharge port, welded legs, racking port with reinforcing plate & butterfly valve
- Supreme lid with 3" neck extension for air vent, food grade inflatable gasket, hand pump and all parts included
- Reinforcing rim and heavy gauge steel
- Sanitary sample valve, butterfly valve and fittings included

Supreme quality stainless steel materials, accessories and sanitary construction details. Top quality tank with all desired features at affordable price. Tank bottom is conical dish with 90 degree elbow toward the front of tank for 100% discharge.

Supreme Tank Conical Bottom with Cooling Jacket

Special features:

- 304 stainless steel materials, exterior with marble finish and interior with mirror polish.
- Conical bottom with TC discharge port, welded legs, racking port with reinforcing plate and butterfly valve
- Supreme lid with 3" neck extension for air vent, food grade inflatable gasket, hand pump and all parts included
- Reinforcing rim and heavy gauge
- Sanitary sample valve, butterfly valve and fittings included
- Dimple cooling jacket is U-shape covering back side from top to bottom.
- Premium manway door
- Level sight gauge with 3-way valve and display capacity marking.

Flexible storage solution for wineries of any size, perfect choice for fermentation, aging, bottling, mixing or storage needs. Heavy gauge premium materials, custom built specifications & details, top of the line valves and accessories, superior welding & construction. Unsurpassed quality at great value with premium grade bright mirror finish 304L stainless steel material.

Special features:

- Sanitary TC butterfly valve & clamps
- Premium grade 304L stainless steel, heavy gauge
- Food grade inflatable vinyl gasket, lid, hand pump & all parts complete
- Lifting arm & sample valve (for tanks 1500 L & up)
- Bright mirror finish on exterior & interior, EZclean.

GW Kent butterfly valve with stainless steel handle included with tank, best in the industry.

2000 liter with 16" manway door.

Econo Variable Capacity Tank

Features:

- Sanitary econo butterfly valve & fittings included
- 304L stainless steel with rolled rim
- Food grade inflatable vinyl gasket, lid, hand pump & all parts complete
- Bright mirror finished interior, EZclean, and marble finished exterior
- Flat bottom tank model with option of stand purchase
- Round dish bottom tank model equipped with discharge drain and tank stand is included

Made of 304 stainless with marble finish. Offers good value and a great alternative to plastic containers. Two styles to choose from, flat bottom without stand or round dish bottom with stand. Round dish bottom allows for 100% discharge and includes stainless steel tank stand at great value.

Tank Hand Pump

Two types of hand pumps available to inflate gaskets for variable capacity tanks. Deluxe hand pump with larger cylinder for faster inflation and equipped with mounting bracket to bolt to tank leg. Tank hand pump made of 304 stainless steel with pressure gauge and on/off shut-off knob.

Item	SKU	Price
Hand Pump for Variable Capacity Tank	2877	\$39.00
Deluxe Hand Pump for Variable Capacity Tank	2877-2	\$69.00
O-Ring for Hand Pump (set of 10)	2877-4	\$8.00
Pressure Gauge for Hand Pump	2877-5	\$8.00
On/Off shut-off knob for Hand Pump	2877-6	\$5.00

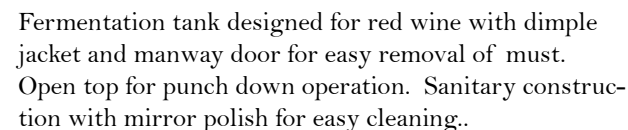

Tank Cooling Plate & Coil

Superior quality Vintner Cold Plates made of 19 gauge 304L stainless steel with mirror polish. Preformed stainless steel channel with welding along its perimeter for superior heat exchange and strength, up to 120 psi of pressure. Designed for food, dairy and beverage applications. Suggested flow rate is 4 - 7 gpm at 15 psi. Connection pipe length is 11.8" with 1/2" barb & pipe thread. No tank mounting hardware.

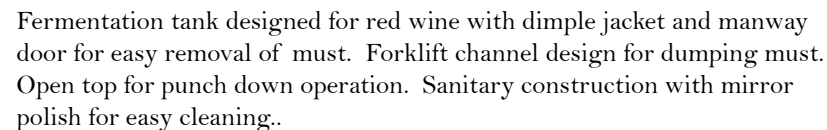

Item	Width	Length	SKU	Price

- 304 stainless steel, thickness 11 gauge (dimple jacket 14 gauge).
- Capacity 529 gallon. Heavy duty sanitary construction, mirror finish.
- Diameter 55" x tank height 59" x total height 93"
- 2" tri-clamp port for discharge.
- Complete coverage of dimple jacket, 3/4" coolant inlet & outlet
- 1.5" tri-clamp sample port and thermowell
- Sloped bottom with square manway 15.5" x 12.5"
- Stainless steel legs with leveling & foot pads.
- Valves & fittings are not included, please order separately.
-

SKU # 2770-1 \$7,795.00

- 304 stainless steel, thickness 11 gauge (dimple jacket 14 gauge).
- Capacity 529 gallon. Heavy duty sanitary construction, mirror finish.
- Diameter 55" x tank height 59" x total height 65"
- 2" tri-clamp port for discharge.
- Complete coverage of dimple jacket, 3/4" coolant inlet & outlet
- 1.5" tri-clamp sample port and thermowell
- Sloped bottom with square manway 15.5" x 12.5"
- Stainless steel forklift channel.
- Valves & fittings are not included, please order separately.
-

SKU # 2770-6 \$7,595.00

Stainless Steel Barrels 75 gallon

Designed to fit on barrel rack for portability and stackability. Sanitary construction and polish, easy to clean. Perfect storage solution for small lot storage of wine & spirits. Valves & fittings sold separately.

Features:

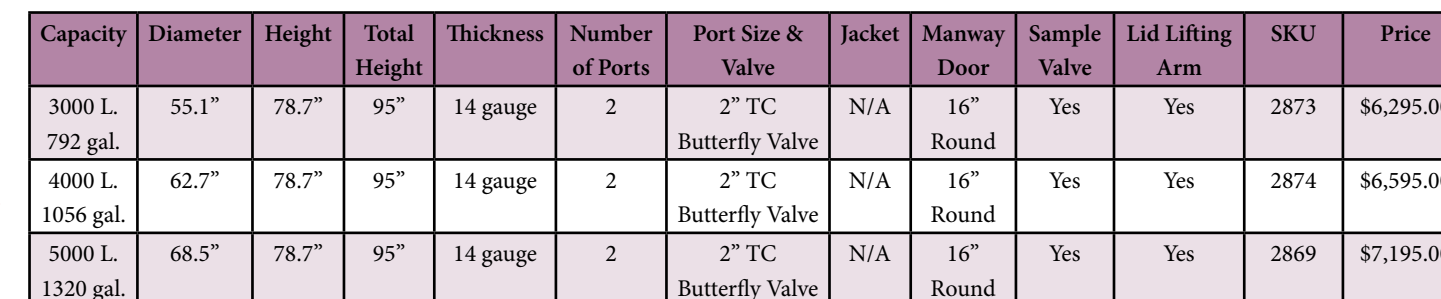

- Made of 304L stainless steel, 14 gauge (2 mm thickness)
- 75 gallons capacity with one 2" TC ferrule welded on belly.
- Fits on standard barrel rack, with roll rim.
- Measurement: 25.6" diameter x 40" length.

SKU #2757	Quantity 1 - 11	\$879.00
	12 +	\$829.00

Special features:

- Premium grade 304L stainless steel
- Insulated channel type cooling jacket, energy efficient. Jacket height 20" or 30" on entire circumference
- Conical bottom with center pipe & discharge port
- Premium, heavy duty manway door 16" round
- Racking port with butterfly valve
- One 2" TC discharge port with end caps & clamp
- Sample valve
- Level sight gauge with 3-way valve
- Thermometer & thermometer well
- Reinforcing stainless steel bar on rim
- Ladder support
- Four welded legs with level screws & feet
- Food grade inflatable vinyl gasket, floating lid, lifting arm and all parts included
- Heavy duty, large capacity hand pump with mounting bracket
- Bright mirror finish on exterior & interior, EZclean, non-stick surface

Heat-Exchanger Flex-Tube

Designed for cooling or heating of small containers like barrels or tanks. Tube can fit into tight space, like a barrel bung hole.

- 304 stainless steel tube
- 1/2" NPT inlet & outlet
- Max. working pressure 40 psi.

Length	Meter	Connection	Pressure Rating	SKU	Price
Flex-tube 4'-11"	1.5 meter	1/2 NPT	40 psi max.	2816-15	\$345.00
Flex-tube 8'-2"	2.5 meter	1/2" NPT	40 psi max.	2816-25	\$425.00
Flex-tube 11'-5"	3.5 meter	1/2" NPT	40 psi max.	2816-35	\$475.00

Primo Tank Slope Bottom with Cooling Jacket

Variable Capacity tank with slope bottom and large pomace manway perfect for red wine production. With oval upper manway door tank is also convenient for white wine production. 14 gauge premium 304L stainless steel, equipped with top of the line butterfly valves and accessories, superior welding & construction.

Special features:

- 10 degree sloped bottom with discharge port
- Two manways, pomace manway 20” x 15” and oval side manway 12” x 17”
- Insulated channel type cooling jacket, energy efficient, covers entire mid-section of tank
- Three ports for racking & discharging. Sample valve
- Level sight gauge with 3-way valve
- Sanitary thermometer well and thermometer
- Four welded legs with leveling screws & feet
- Ladder support. Reinforcing rim
- Food grade inflatable gasket, floating lid and all parts included
- Heavy duty, large capacity hand pump with mounting bracket
- Bright mirror finish on exterior & interior. EZclean, non-stick surface

Variable Capacity Portable Tank

Tank with all of the standard features of variable capacity, floating lid vessels. Conical bottom for 100% discharge. Tank base has built in fork lift channel for easy and safe transport.

Features:

- Conical bottom discharge port on bottom & welded fork lift base with fork channel
- Racking port with reinforcing plate & 1-1/2” butterfly valve
- One 1-1/2” TC discharge port with end caps & clamps
- Sanitary sample valve. Reinforcing steel bar on rim
- Premium grade 304 stainless steel, marble finish exterior and mirror finish interior
- Inflatable vinyl gaskets, hand pump, air vent & all parts complete
- Floating lid with 3” neck extension for air vent.

Sanitary Venturi Injector

Engineered to introduce large but controlled amount of air mixed into liquid stream to help fermentation. Sanitary designed with sight glass. Injector for horizontal installation with same diameter pipe is recommended. To energize fermentations by automatically injecting air during pump over is highly efficient. Easy to clean.

- 304 stainless steel material, mirror polished
- Gas inlet with hose barb 3/8"
- Built-in sight glass

SKU #85-31 1.5" TC connection \$395.00
SKU #85-32 2" TC connection \$495.00

www.gwkent.com

Injector

For in-line adding of fining agents during liquid transfer, with 1-1/2" TC connection, easy, uniform and effective. Connect injector to pump feed and product is blended during pumping process.

Injector feed is by gravity.
SKU #85-10 \$119.00

Stainless Steel Tank Vent TC

- 304 stainless steel material, 2" TC connection.
- Gas inlet with 1/4" female NPT.
- Pressure relief at 9 psi, vacuum break 0.083 psi
- Maximum temperature & pressure rating 3 psi at 70 F

SKU #80-17 \$149.00

Plastic Tank Vent 2" TC

Inexpensive plastic tank vent for low pressure wine tank. Connection is stainless steel with 2" TC.

SKU #80-179 \$69.00

Stainless Steel Bottle & Container

304 stainless steel sanitary bottle & container for general processing & storage.

White Fermenter with Cooling Jacket

Special features:

- 304L stainless steel tank with conical bottom & welded legs
- Truncated top manway 8" with premium air vent
- Oval manway 14" x 18" designed for fermentation & storage
- Racking port & bottom discharge port with 2" butterfly valve,
- Sanitary sample valves, level gauge and thermometer
- Stainless steel tank leveling feet
- Dimple cooling jackets are U shape covering back side of tank

Red Fermenter with Cooling & Heating Jacket

Special features:

- 304L stainless steel tank with 5 degree sloped bottom and welded legs
- Square side manway 17” x 22”
- Top manway 16” truncated, with built-in pump over pipes and rotating sprayer
- Dimple cooling jacket connection to controller mounted on tank
- Heating jacket 3 kw. on tank bottom
- Thermometer.
- Level gauge with 3-way valve and sample valve and ladder support
- Two racking port with 2” butterfly valve, bottom discharge port
- Premium grade 304L stainless steel, exterior marble finish, interior mirror finish
- Stainless steel tank leveling feet
- All parts and fittings are included

Proline Wine Tank

For fermentation or storage. Made of premium 304L stainless steel 11 gauge. Tanks can be custom built to specifications and stock tanks are available for quick delivery.

Features:

- Top - truncated cone with manway door 18”
- Bottom - sloped flat toward manway door
- Two dimple cooling jackets
- Pomace manway door 18” round
- Two 2” TC ports for racking & discharge
- Tri-Clamp port for sample valve. Thermometer well
- 2” TC port for tank vent connection
- Stainless steel tank stand (16” clearance) welded to tank
- Adjustable level foot pad in stainless steel included
- Lifting lugs and ladder support

Options:

- Oval racking door (add \$400.00)
- 36” height tank stand (add \$250.00)
- Butterfly valves, tank vents in stainless steel, sample valve, thermometer & fittings (add \$350.00)

Plastic 330 gal. IBC Transport Container

Reliable and safe transport for liquid food products. Space saving modular design that is lightweight and easy to handle.

The most popular transport containers for food and beverage industry.

- FDA approved extrusion blow-molded HDPE plastic container
- Capacity is 330 gallon (1250 liter), with 4-way pallet entry
- Outer container is welded galvanized tubular steel grid, pallet is also galvanized steel, designed for protection and handling
- Includes a plastic valve for product discharge, connection is 2” male NPT
- Measurement 47.3” x 39.4” x 53.2” H. Weight 150 lb.

SKU #2759	1 - 9	\$395.00
	10+	\$345.00

Replacement parts:

2” Plastic IBC Ball Valve	SKU #2759A	\$49.00
Plastic Top Cap	SKU #2759C	\$49.00

Food Grade Processing Tote

- Molded-in handles and smooth interior for easy cleaning.
- Capacity 50 lb., a.3 cu. ft.
- 90 degree cross stacking via stacking grooves.
- 4:1 nesting ratio for space saving, with reinforced nesting-stops prevent jamming.
- Minimum order 6 pcs.
- SKU #2034 \$16.95 each

Brite Tank for Cider

304 stainless steel, sanitary construction 100% TIG welding and sanitary polish with stringent controls, inspections and pressure testing. We guarantee unsurpassed tank quality and fantastic value with 3 premium valves and fittings included at no additional cost.

Features:

- Design pressure 15 psi
- 4 stainless steel legs with leveling feet
- Interior shell: 304 stainless steel, thickness 11 gauge
- Exterior shell: 304 stainless steel, thickness 14 gauge
- Interior and exterior finish bright polish to 250 grit.
- Flanged and dished head top and bottom, 25% head space
- Racking port and discharge port with butterfly valve & fittings
- Side manway door, shadowless
- Dual zone cooling jacket (3 zone for larger tank)
- Polyurethane insulation thickness 2" for cooling jacket
- Fully welded exterior shell
- CIP arm and spray ball
- Carbonation system with 1" x 8" stone with built-in check valve.
- Vacuum & pressure relief valve, relief pressure 15 psi,
- Pressure gauge, Thermometer, Perlick style sample valve
- Tank complete with fittings, valves and all parts

Micro-Brite Tank for Cider

Micro-brite tank single wall for walk-in cooler storage at economical price . 304 stainless steel, sanitary construction 100% TIG welding and sanitary polish . We guarantee tank quality. All valves and fittings included at no additional cost.

Features:

- Design pressure 15 psi
- 4 stainless steel legs with leveling feet
- Interior shell: 304 stainless steel 11 gauge & cladding 16 gauge.
- Interior and exterior finish bright polish.
- Flanged and dished head top and bottom, 25% head space
- Racking port & discharge port with Econo-butterfly valve & fittings
- Side manway door. Dual zone cooling jacket
- Polyurethane insulation thickness 2" for cooling jacket
- CIP arm and spray ball
- Pico Carbonator. Pico-PRV
- Pressure gauge, Thermometer, sample valve
- Tank complete with fittings, valves and all parts

Euro Transport Tank for Cider

- 314 Stainless Steel.
- Design pressure 30 psi.
- Can be used for fermentation, storage or carbonation.
- Capacity 10 HL. (gross volume 8.5 bbl. or 264 gallons)
- Material: 304 stainless steel 2B finished.
- Diameter 39.4" x tank height 61.5" (total height 72")
- Cone bottom 120 degree, with forklift chanel.
- Discharge ports with 1.5" butterfly valve TC
- CO2 inlet with ball lock quick disconnect
- CIP set up with spray ball.
- Pico Carbonation stone 4" with check valve included
- Top manway with PRV.

SKU #559-88 Euro Transport tank single wall \$4,995.00
SKU #559-95 Euro Transport tank with glycol jacket \$6,595.00

Grape Processing Machine

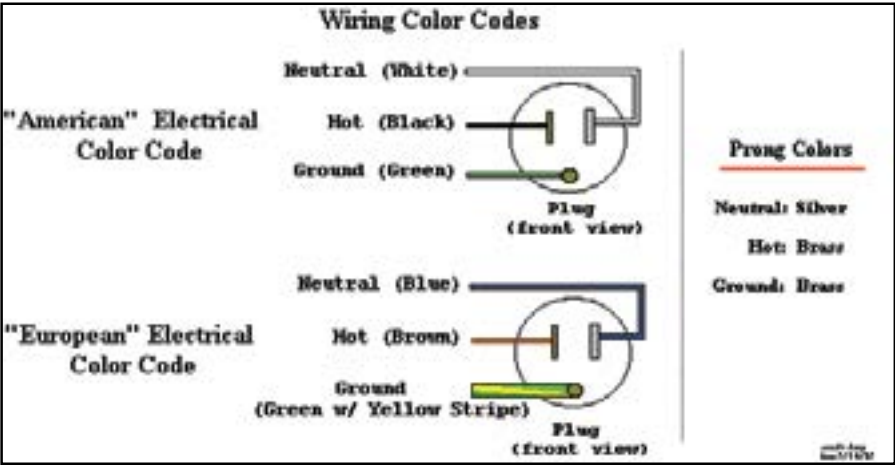

Pneumatic Membrane Press

Easy to use and reliable sanitary press offers quality juice and time saving operation. Sanitary and durable construction in 304L stainless steel with beautiful polish. 2 year warranty, winery references available.

Features:

- Press is equipped with Siemens PLC controller with 16 preprogrammed pressing cycles to obtain desirable yield
- Gentle press action results in high quality juice without harsh phenolics
- Manual pressing is simply available by turning manual switch
- Equipped with sliding door and axial loading, complete with motor, vane-type compressor, blower, and operating alarm system automatic controls.
- Press is complete and ready to operate upon delivery. Guaranteed trouble-free operation and technican support.

Piston Hydraulic Press with Wood Basket

Inexpensive Italian hydraulic press wood basket model 70, single basket mounted with tilt frame design for easy loading & unloading of fruit.

Features:

- Press frame is heavy duty painted steel with wheels
- Wood basket 28" diameter x 34" height with 90 gallon capacity. Juice tray and pressing plates is painted steel
- Press operates with a single phase 2-1/2 h.p. motor, 220 V. 60 Hz
- Operating pressure is 4000 PSI. Press uses hydraulic oil ISO 32 (SAE 10)

SKU #2492 \$5,995.00

Piston Hydraulic Press Stainless Steel Basket

Hydraulic press model 70 with single stainless steel basket and juice tray, mounted with tilt frame designed for easy loading & unloading of fruit.

Features:

- Press frame is heavy duty painted steel with wheels
- Stainless steel basket 28" diameter x 34" height with 90 gallon capacity
- Juice tray and pressing plates are made of stainless steel for sanitary juice processing
- Press operates with a single phase 2-1/2 h.p. motor, 220 V. 60 Hz
- Operating pressure is 4000 PSI. Press uses hydraulic oil ISO 32 (SAE 10)

SKU #2492-5 \$8,995.00

Alfa 80 Hydraulic Press with 2 Baskets & 2 Carts

Superior quality, commercial hydraulic press with double stainless steel basket & cart for efficient and sanitary fruit pressing.

Features:

- Double stainless steel basket & cart included.
- 2 speed electrical control and 3-phase, 220 V. motor
- Pressure control range 0 - 9000 psi, perfect for whole grapes and ice wine
- Basket size 32" diameter x 36" height
- Production volume is 125 gal. (capacity of 500 lb. of grapes.)
- Press uses hydraulic oil ISO 32 (SAE 10).

SKU #2498 \$17,995.00

Wood Basket Bladder Press

Traditional wood basket bladder press on painted steel frame.

Model	Capacity	Dia. x Ht.	SKU	Price
#70 Press	85 gal.	28" x 34"	#246-70	\$2,695.00
Replacement Bladder			#246-70A	\$450.00

120 gal. Stainless Steel Bladder Press

Larger capacity vertical bladder press, using water pressure to inflate and press.

Features:

- Stainless steel basket, juice tray and lid for sanitary processing & pressing
- Hand operated pulley system speeds up loading and unloading process
- Equipped with tilt frame design for easy loading & unloading of fruit
- Heavy duty food-grade rubber bladder and pressure relief valve
- Heavy duty mild steel frame mounted on wheels for mobility

SKU #2442	120 gal. bladder press	\$8,495.00
SKU #2445A	Replacement rubber bladder	\$395.00

79 gal. Stainless Steel Bladder Press

Features:

- Stainless steel basket, juice tray and lid for sanitary fruit processing & pressing
- Hand operated pulley system speeds up loading and unloading process
- Equipped with tilt frame design for easy loading & unloading of fruit
- Heavy duty food-grade rubber bladder and pressure relief valve
- Heavy duty mild steel frame mounted on wheels for mobility

SKU #2445	79 gal. bladder	\$6,595.00
SKU #2445A	Replacement rubber bladder	\$395.00

Zambelli Cantinetta Crusher / De-stemmer

Simple machine with auger inside hopper to feed grapes into crusher, then de-stems.

Feature:

- Capacity 1.5 ton/hour, inexpensive well built crusher / destemmer
- 304L stainless steel for start-up winery to process fruit in sanitary condition
- Double rollers to crush fruit are made of food grade rubber and rollers are adjustable to suit berry size
- De-stemming cage is a fixed screen with paddle to push berries through holes in the de-stemming cage
- Single phase 1 hp motor, 220V. 60 Hz. electrical set up
- Full length screw auger to feed grapes into machine

SKU #2432 \$1,395.00

Stainless Steel Stand for Cantinetta

SKU #2432-9 \$250.00

Zambelli DeStone Machine for Cherry & Apricot

- Machine with screen set up for cherry and apricot. Hopper with screw auger & safety cover
- 304L stainless steel to process fruit in sanitary condition
- 1-phase motor, 220 V. 60 Hz.

SKU #2438 \$2,790.00

www.gwkent.com

www.gwkent.com

Made of 304L stainless steel, processes grapes gently and efficiently with minimal damage to berries. No built-in must pump (propeller) to destroy crushed grapes into mush and causing problems in press like many inexpensive de-stemmer / crushers on the market. Hopper on top equipped with screw auger for grape feed. Machine is very easy to clean, all grape processing parts can be taken apart and hosed down for cleaning.

Precisa 50 De-stemmer / Crusher

Features:

- Capacity 5 - 6 tons per hour
- Motor in 3-phase, 220V with mechanical variable speed control allowing winemaker to achieve desired quality and speed. Motor is UL/CSA approved. RPM: 350 - 550
- Exterior mounted double rubber roller crusher that can be slid to side when processing whole grapes
- Grape collection bin with must auger is removable
- De-stemming cage in stainless steel and is removable, de-stemming arm in stainless steel with rubber tips yields high quality whole grapes
- De-stemming cage diameter 12" x length 40". Hole diameter is about 3/4". Machine to ground clearance is 17.5"
- Optional teflon de-stemming cage for smaller berries available, price is \$995.00
- Machine measurement 36" x 75" x 71" H. Weight 600 lb.

SKU #2486 \$8,595.00

Precisa 100 De-stemmer / Crusher

Features:

- Capacity 10 - 12 ton per hour
- Motor in 3-phase, 220V with mechanical variable speed control allowing winemaker to achieve desired quality and speed. Motor is UL/CSA approved. RPM: 350 - 550
- Exterior mounted double rubber roller crusher that can be slid to side when processing whole grapes
- Grape collection bin with must auger is removable
- De-stemming cage in stainless steel and is removable, de-stemming arm in stainless steel with rubber tips yields high quality whole grapes
- De-stemming cage 15" diameter x 48" length
- Optional teflon de-stemming cage for smaller berries available, price is \$1295.00
- Machine measurement 40" x 87" x 75" H. Weight 1000 lb.

SKU #2488 \$10,995.00

Apple Pulverizer

Commercial mill designed for apple or pear processing, made of stainless steel. Machine has 2 stainless steel cutting blades to pulverize apples or pears into sauce for pressing. This machine will not work with stone fruit or berry fruit.

- Output: 4500 lb. per hour.
- Motor: 2 hp. 1-phase 220 V. 60 Hz.
- Hopper is has a 26" top opening, depth is about 14". Rubber protector is inside hopper
- Machine height is 55"

SKU #2455 \$1,995.00

Delta 30R De-stemmer / Crusher

- 304 stainless steel Destemmer / Crusher. Capacity of 3 to 4 tons per hour.
- Single speed with stainless steel destemming cage with beater arm running at 510 RPM. Destemmer cage cylinder's dia. 9" x 40"
- Removable destemming cage, beater arm and double roller crusher.
- Equipped with full length auger for grape cluster feed
- 3-phase motor 2.5 h.p. 220V. 60 Hz.

SKU#2431 \$5,995.00

Delta 30 De-stemmer

- 304 stainless steel, capacity of 3 to 4 tons per hour.
- Single speed with stainless steel destemming cage with beater arm running at 550 RPM.
- Destemmer cage cylinder's diameter is 10".
- Gentle destemming with removable destemming cage and beater arm. Machine has no rollers to crush grapes.
- Equipped with full length auger for grape cluster feed and full length auger for crushed grape out of destemmer.
- Single phase motor 2.5 h.p. 220V. 60 Hz.

SKU #2430 \$3,295.00

Pump Cart for Juice Pump Over Cart

Mobile pump cart with large pushing handle and wheels, sanitary designed and constructed to meet winery processing requirements. Sloped and winged bottom allows 100% juice discharge.

- Pump cart measures: 30" L x 30" W x 26" H. Total height 36"
- Sloped & winged bottom mounted on 4 legs.
- Mounted on four 6" wheels with handle for mobility
- Removable screen 6" deep with handle
- Juice intake pipe with elbow and 2" TC connection
- Bottom drain 2" TC for 100% discharge
- Sanitary constructed in 304L stainless steel 14 gauge

SKU #2037 \$1,595.00

Petite Pump Cart

- Pump cart measures: 30" L x 30" W x 21" H. Total height 28"

SKU #2038 \$1,295.00

Suction Screen Probe

Designed for pumping free-run juice from macrobin or stainless steel tank, leaving skins and seeds in bin.

- 304L stainless steel, sanitary construction and polish, very easy to clean.
- Consists of suction screen 4" diameter and 25" length connecting to suction wand. Wand has 2" TC connection for juice and hose. Total length is 50"
- Can be moved from tank to tank. Time saving tool, indispensable during harvest

SKU #2035 \$295.00

www.gwkent.com

Jabsco Veraflex Impeller Pump

A gentle pump with variable speed frequency drive that can handle juice, wine, or must. Variable Frequency Drive adjusts the speed of an electric motor by regulating the power being delivered. Pump is self priming and mounted on cart with reversing switch, can be used for transfer, filtration and bottling.

Features:

- Single-phase, 230 V. 60 Hz. 3 HP motor
- Hygienic body made of 316 stainless steel, closed coupled, 3A.
- Self Priming, even from dry start up
- Wireless remote control included. Up to 50 ft. range with forward & reverse
- Connection 2" TC
- Flow rate 3 - 60 gpm & reversible.
- Positive displacement to pump and meter viscous fluids like must.
- Variable speed frequency drive - NEMA 4 enclosure
- Impeller made of sanitary Neoprene.
- VFD: 230 VAC 1 phase input, 50/60 Hz.
- Large pump cart with pneumatic tires.
- Storage tray mounted on handle for remote control storage and part storage.

SKU #2912-9

\$4,495.00

Zambelli Flexible Impeller Pump Single Speed

Single speed pump for wine & juice transfer.

Feature:

- Self priming
- 304L stainless steel pump housing and food grade impeller
- Equipped with by-pass valve to slow down flow rate about 20%, and reversing switch.
- Connection is Tri-Clamp and motor is single phase UL/CSA protective motor, 900 RPM

Model	Application	Motor h.p.	Phase	Speed	Voltage	Connection	Flow Rate	Pressure	RPM	SKU	Price

Zambelli Variable Speed Must Pumps

Variable speed impeller pump with frequency drive and remote control for handling of must or wine.

Features:

- Frequency drive with remote control
- 304 stainless steel pump housing
- Self priming, with food grade impeller, by-pass valve and reversing switch
- 3-phase UL/CSA protective motor 208V/220V. 60 Hz

Model	Application	Motor	Phase	Speed	Voltage	Connection	Flow Rate	Pressure	RPM	SKU	Price
T-70	Juice/Wine	1-1/4 h.p.	3	Variable	220V. 60 Hz.	2" TC	1.5-30 gpm	50 psi max	32-750	291-3	\$3,295.00
T-250	Must/Wine	4 h.p.	3	Variable	220V. 60 Hz.	3" TC	5-110 gpm	44 psi max	32-750	291-6	\$5,095.00

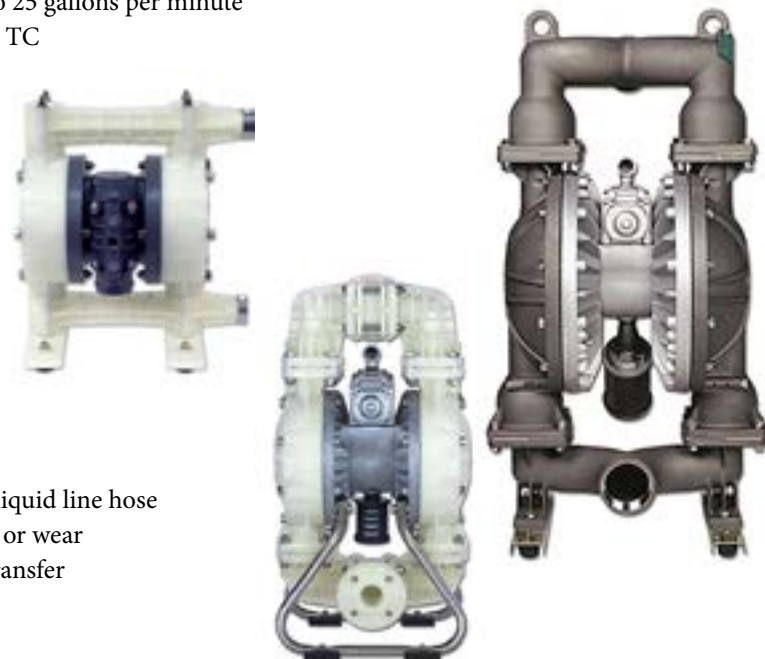

Petite Screw Pumps

Small variable speed screw pump that handles liquids and some solids, pump mounted on cart. A perfect pump for filtration and bottling, gentle handling and delivers pressure without pulsation and minimizing oxidation. Compact block designed with direct flanged drive and plug-in shaft connection. Simple maintenance and easy to clean.

Features:

- Pump Housing: 304 stainless steel
 - Rotor: 304 stainless steel.
 - Stator: Food grade rubber.
 - Pressure: up to 60 psi (4 bar).
 - Motor: 1.1 kw (1-1/2 h.p.) single phase 220 V, 60 Hz. Protective motor UL, CSA, frequency drive variable speed, reversing switch.
 - Capacity: 2 gallons to 25 gallons per minute
 - Connections: 1-1/2" TC
- SKU #2910 \$3,795.00

Double Diaphragm Pump

Features & Benefits:

- Handles wide variety of fluids with high solids content
- Self Priming
- Ability to run dry
- Variable flow rate and discharge pressure
- Portable & easy installation, just connect air supply line and liquid line hose
- Dead Head, the discharge line can be closed with no damage or wear
- Gentle nature, without damage to sensitive product during transfer
- Explosion Proof, safe to operate

Electric Steam Cleaning Machine

Portable electric steam cleaning machine provides dry, saturated steam for sanitizing equipment, tanks or barrels.

- Single phase & 3-phase 240 V. 60 Hz. 30 KW
- Set pressure 60 psi and 100 psi safety
- Steam wand with 20 ft. hose. Mounted on wheels
- UL, ASME-CSD-1, CSA & CRN (Canada)

Single phase SKU #2540-1 \$6,495.00
3 phase SKU #2540-3 \$6,295.00

6 Spout Gravity Filling Machine

A manual gravity filling machine, sanitary design made of 304 stainless steel. Best gravity filler on the market, offers many years of easy and trouble free bottling.

Features:

- Superior designed filling nozzles with automatic shut-off, fills every bottle at the same height.
- Fill heights can be adjusted in seconds by twisting filling head.
- Accommodates wide range of bottle heights with easy sliding bottle tray adjustment.
- Large holding tank with stainless steel float system, beverage can be pumped in or fed by gravity with connection in 1-1/2" TC.
- Easy to clean and very low maintenance cost.
- Production rate is about 700 bottles per hour.

SKU #2477 6 spout filling machine \$1,795.00
SKU#2477A Rebuilt seal & o-ring (6 nozzle) \$75.00

Gravity Filling & Corking Monobloc

Filling and corking monobloc for non-carbonated wine and beverage with pneumatic lifting cylinder. Filling is gravity system for 4 bottles. One corking station with stainless steel jaw and mechanical hopper and vacuum set up. Two hand safety activation lever, no foot pedal included.

- 304 stainless steel
- Pneumatic lifting.
- Pneumatic valve on feeding pipe for flow control.
- Probes in filling bowl for level control
- Connection for feeding pump (pump is not included)
- Electrical box with low voltage control

SKU #2479 \$15,950.00

Sparkling Filling Machine

A manual counter pressure filling machine for any carbonated beverage, made of 304 stainless steel for small lot commercial production. Liquid tank with large sight glass and pressure gauge. Equipped with pressure relief valve. Purges bottle with gas prior to liquid filling by lowering handle half way. Filling valve opens when handle is press down. Table top designed with protective polycarbonate cover for bottling.

Item	Production rate	SKU	Price
2 station Sparkling Filling Machine	100 bottle /hr	3359-2	\$6,295.00
4 station Sparkling Filling Machine	200 bottle/hr	3359-4	\$8,695.00
Rebuild Seal Kit		3359-4A	\$495.00

www.gwkent.com

Sparkling Filling Monobloc

Counter pressure filling monobloc for 4 bottles filling with motorized bottle lifting design and safety guard that is shock-resistant. Filling cycle is fully automatic, operator only needs to load and unload bottles onto the plates. Filling valves have automatic levelling and anti-foaming technology. Machine allows air pre-evacuation, then charge with gas prior filling.

- Production rate 200 - 300 bottle/hour
- Bottle diameter 50 - 110 mm (1.9" - 4.3")
- Bottle height: 150 - 380 mm (5.9" - 14.9")
- Material: 304 stainless steel
- Air consumption: 38 liter per hour
- Dimension 71" x 27" x 12" x 71" H weight 360 lb.

SKU #3351 \$21,950.00

Pneumatic Capper Air-Matic

Semi-automatic pneumatic capping machine in 304 stainless steel suitable for small production of champagne, cider or beer.

Features:

- Use with diameter 26 mm or 29 mm crown cap.
- Production rate is 500 - 600 bottles per hour.
- Equipped with adjustable height, two lever handle activation and protective bottle cover.

SKU #2010 - \$895.00

Champagne Capsule Smoother

Machine to smooth out champagne capsule

SKU #2014 \$1,950.00

www.gwkent.com

Ecoval 20 Champagne Corker / Cager

Ecoval 20 semi-automatic pneumatic machine for corking and wire caging of sparkling bottled product or champagne. Monobloc design compact and mobile. Corker has stainless steel jaw and controlled by an actuator and bottle sensor. Wire caging is functioned by a group of pignon-rack in 3 turns and 1/8th to ensure the flatness of the ring.

- Rate of production : 300 to 500 bottles / hour
- Bottle spec: height 9.0" to 15.2" and diameter 2.56" to 4.6"
- Distribution of the corks : manual
- Distribution of the wirehoods : automatic (reserve of 60 wirehoods)
- Electrical power : 0,1 KW
- Air network connection : ¼ gas
- Supply voltage : 220 Volts
- Air consumption : 20 m3 / h
- Compressed air pressure : 88 psi (6 bars)
- Made in France

SKU #2017 \$27,650.00

Champagne Corker / Cager

Semi-automatic machine for corking & wire-caging made of 304 stainless steel mounted on wheels. Corker is activated by foot pedal with manual corks distribution and pneumatic bottles lifting. Corking jaws are made of stainless steel. Wire-hooder has turret with bottles lifting and pneumatic rolling cages with manual cage distribution. Two lever safety hand activation with no foot pedal.

- Production: 500 bottle/hour
- Bottle: 375 ml, 750 ml and 1.5 liter size
- Dimensions: 36" x 26" x 71"
- weight 420 lb.

SKU #2013 \$15,950.00

© G.W. KENT, INC. JAN. 2016

Rapid 49 Champagne Corker

New & improved Rapid 49 champagne corker, sturdy frame and heavy duty brass jaw with wirehood tightener. This champagne corker is made with Swiss precision and attention to details. Just pull compress lever to compress cork, and pull insertion lever to insert cork and form mushroom top. Perfect for small producer.

Specification:

- 4 pcs. brass iris jaw and compressed cork to diameter 16 mm
- Works with maximum cork length 51 mm
- Works with bottle neck opening 18 mm
- Maximum bottle height 400 mm
- Wirehooder, holds champagne wire on to bottle for manual tightening

SKU #2015-49 \$4,395.00

Pneumatic Corker

Corker in 304 stainless steel, pneumatic model requires a 1 h.p. air compressor (not included) to operate corking jaw and cork insertion.

Features:

- 304 stainless steel sanitary construction
- Auto feed hopper holds 250 - 500 corks
- Automatic adjustment for natural cork & synthetic cork, diameter 22 mm x 26 mm and max. length 50 mm
- 304 stainless steel jaw, reliable & uniform compressing
- Automatic safety sensing system to avoid bottle breakage.
- Adjustable bottle height
- Production rate 600 bottles per hour

SKU # 2015-1 \$4,695.00

MiniLux Semi-Automatic Corker

MiniLux corker in stainless steel, a proven corking machine serving wineries all over the world for over 30 years.

Features:

- 304 stainless steel sanitary construction
- Equipped with Venturi Vacuum System for vacuum.
- Single phase motor, 220 V. 60 Hz. with microswitch sensor
- Auto feed hopper holds 500 corks
- Automatic adjustment for natural cork & synthetic cork, diameter 22 mm x 26 mm and max. length 50 mm
- 304 stainless steel jaw, reliable & uniform compressing
- Automatic safety sensing system to avoid bottle breakage.
- Adjustable bottle height
- Production rate 1000 bottles per hour

SKU # 2011 \$9,295.00

Manual Rinser & Sparger for Bottles

Feature:

- Rinser with 2 water jets as bottle rinser, water filter is included
- Two jet spargers for gas, includes gas regulator and set up
- Stainless steel frame on low stand for easy working height

Catalog #3355 \$2,795.00

Manual Gas Sparger for Bottles

Features:

- Sparger with four jet spargers for gas sparging of bottles, includes gas regulator and set up
- Stainless steel frame on low stand for easy working height

SKU #3359 \$2,395.00

Shrink Capsule Machine

Commercial heat shrink machine designed for PVC capsules, bench top with heavy duty thermal head with spring loaded handle. Temperature is adjustable and ceramic disc for shrinking capsule disc on top, professional capsuling job everytime. For capsules maximum length of 60 mm. Machine works with bottles 1/2 liter to 2 liter. Single phase 220 V.

SKU #3501 \$1,595.00

Tin Foil Spinner

For commercial application of tin or polylam capsules to bottles, a spinner with bronze rolling spindle for applying pressure to capsules. Speed 1400 rpm. Single phase 220V. 60 Hz. Foil Spinner head only, no stand.

SKU #3502-1 \$1,595.00

Tin Foil Spinner Machine

For commercial application of tin or polylam capsules to bottles, a spinner with bronze rolling spindle for applying pressure to capsules. Spring loaded handle, mounted on a heavy duty stainless steel bench mount stand. Machine will accommodate maximum capsule length of 60 mm and bottle height from 180 mm to 360 mm at speed 1400 rpm. Single phase 220V.

SKU #3502 \$2,395.00

Wax Dipping Machine

Machine for the application of wax or shellac on bottle neck.

- Bottles: 750 ml - 3 liter
- Number of bottle: 1
- Temperature: 90° C
- Wax: 1 lb.
- Production: 100 bottle/hour

Single Station (for 1 bottle) SKU #2016-1 \$4,650.00

© G.W. KENT, INC. JAN. 2016

Screw Capping Machine

Semi-automatic single head table top machine for laboratory use or boutique winery production, up to 1000 bottles per hour. Equipped with top of line screw cap head that is used in large automatic production lines. Easy to use, compact machine with simple electronic commands. Its universal adaptor allows the use of other type of head (heat shrink or foil spinning). A mechanical lifting and lowering feature with an electronic system for slow descent and rapid lifting of the head during smoothing at up to 2500 rpm, as well as an electronic variator to allow screw-capping at 250 rpm. Perfect for small runs, closure tests and laboratory purposes, accepts bottle heights that range from 160 mm to 360 mm. Machines are calibrated for Stelvin Caps 30 H 60 to work with glass bottle with BVS finish.

SKU #3503 \$13,950.00

AP-362 Semi-Automatic Labeling Machine

The perfect semi-automatic labeling solution for cylindrical containers as well as many tapered containers, including bottles, cans, jars and tubes.

Set-up and operation is fast and easy.

1. Set the guides
2. Place your container in the machine
3. Press the foot switch to apply label

The built-in spring-loaded pressure arm makes sure labels are applied firmly and without wrinkles. Fast labeling, able to apply labels at speeds of up to 1200 per hour. Labels are perfectly applied without wrinkles, giving your finished products a highly professional look. It can apply one or two different labels to a single container. A built-in LED counter and memory for up to nine front-to-back label offsets is also included.

Specifications:

- Container Width: 1” to 9.4” (25.4mm to 238mm)
- Container Diameter: 0.6” to 6.7”(15mm to 170mm) Container Shape: Cylindrical and many tapered.
- Roll diameter: Up to 8” (203mm)
- Media liner width: 1” to 8” (25.4mm to 213mm). Roll core: 2” to 3” I.D. (51.8mm to 76.2mm)
- Dimensions: 13.4” W x 8.9” H x 12.9” D (340mmW x 226mmH x 328mmD)

SKU #3515 \$1,795.00

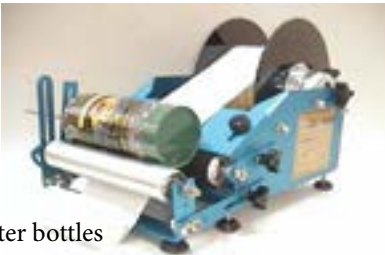

Race Junior Manual Labeling Machine

Affordably priced with speed, accuracy and versatility for small run labeling operation.

- Roll diameter 8” maximum. Label height 5” maximum
- Accomodates bottle diameter 1/2” to 4.5”, front and back labels on the same roll with use of gap guide
- Works with both left hand and right hand oriented labels. Will not work with magnums or 3 liter bottles

SKU #3514 \$995.00

Race Razor Manual Labeling Machine

The Race Razor works with roll stock, fan-folded and flat stock labels.

The labels can also be fed right out of a printer making it ideal for short print runs.

- Bottle or container size 1 1/2 “ to 5”. Web width 1” to 6”
- Roll diameter 8” maximum. Label orientation #4 left edge leading
- Capable of applying front and back labels alternating on the same roll (requires optional gap guide)
- As containers are labeled, the used substrate is wound onto the crank roller keeping your work area clean.
- Approximate labeling speed is 10-15 containers per minute.

SKU #3513 \$1,250.00

Race Standard Manual Labeling Machine

- Works with any round container from 1” to 8” diameter
- Works with left hand or right hand label
- Handles label rolls up to 12” diameter and front and back labels on the same roll
- Easy adjustment to different size bottle. Light weight, portable and compact design

SKU #3512 \$1,495.00

www.gwkent.com

Race Taper Manual Labeling Machine

Same machine as Race Standard but roll spacing angle is adjustable to compensate for tapered bottles, so label is positioned straight on bottles

SKU #3511 \$1,795.00

Wine Bottles

All bottles are cork finished with bottle neck opening 18 mm for standard wine cork.

Sold in pallet quantity, about 100 cases per pallet (depends on style of bottle). No mix and match.

Synthetic I-TEK WineCork

An injected expanded cellular cork with uniform internal structure and mirror smooth exterior surface. High quality copolymer delivers consistent high performance to protect your wine.

- No off-flavor, breakage or disintegration.
- Maintain long term wine quality without leakage.
- Natural cork appearance, diameter 38 mm x length 22 mm.

SKU #0015 \$95.00 per bag of 1000 cork.

Acquamark Wine Corks

A natural wine cork with greater porosity. It undergoes an aesthetic procedure which improves its appearance, mechanical characteristics and bottling performance. Cork length is 44 mm and diameter is 24 mm, designed for standard wine bottle of neck opening of 18 mm.

SKU #0009 \$179.00 per bag of 1000 cork.

Agglomerated Wine Corks

New generation of agglomerated wine cork with great structural stability. This cork is recommended for wines intended for early consumption. Cork length is 44 mm and diameter is 23 mm, designed for standard wine bottle of neck opening of 18 mm.

Catalog #0003 \$99.00 per bag of 1000 corks

New generation of agglomerated cork for low CO 2 level sparkling wine product. Cork length is 44 mm and diameter 25.5 mm.

SKU #0014 \$179.00 per bag of 1000 corks.

Natural Corks Winery Grade

Premium quality natural wine corks from Portugal, washed without chlorine provides sensorily neutral, clean and aesthetically beautiful corks. Corks are washed in a mild solution of hydrogen peroxide, an ideal antiseptic and cleansing chemical. Additional process of washing and corks are neutralized and residual oxidants are removed. Corks are dried to about 6% moisture, dust-free, stabilized and packaged. Corks size is #9 X 1-3/4” and fit standard wine bottles with 18 mm bottle neck opening.

Item	SKU	Price / 1000 corks
Super-Plus Winery Grade Corks	0020	\$395.00
First Quality Winery Grade Corks	0022	\$229.00

Colmated Corks

The manufacturing process of colmating material seals the corks and covers all imperfections. Colmated corks reduce seepage and wine migration compared with non-colmated corks of same quality. Colmated corks are an excellent alternative to low-grade natural corks or agglomerated corks.

Item	SKU	Price / 1000 corks
#8 x 1.5” Colmated Cork	0008M	\$79.00
#9 x1.75” Colmated Cork	0002M	\$119.00

Sanitary Diaphragm Valve

Diaphragm valve in 316 L. material, sanitary designed with complete drainage of fluid. It can be sanitized in line with steam (SIP or CIP) or autoclave. It also allows precise control of the fluid flow rate with low turbulence and minimal back pressure. Conforms to FDA standard, mirror polished surface prevents contamination and PFA diaphragm with support in EPDM. Replacement diaphragm available from stock.

316 stainless steel	Connection	SKU	Price

Encapsulated Ball Valves TC

Heavy duty sanitary ball valve full port with encapsulated teflon seats and tri-clamp connection. In-line designed for maximum flow capacity. Valves may be installed at any positions. Made of 316 stainless steel.

- Body and Ball: 316 L. stainless steel
- Seat Material: Teflon
- Finish: 32 Ra ID & OD

316 Stainless Steel	SKU	Price
1" TC Encapsulated Ball Valve	982-10	\$89.00
1-1/2" TC Encapsulated Ball Valve	982-15	\$119.00
2" TC Encapsulated Ball Valve	982-20	\$159.00
3" TC Encapsulated Ball Valve	982-30	\$499.00

Sanitary Ball Valves

www.gwkent.com

304 Stainless steel sanitary ball valves with body that can be taken apart for easy cleaning and maintenance. Uniform bored diameter improves flow and eliminates pooling of potential contaminants. Handle is made of 304 stainless for long service life. Meets 3-A sanitary standards with mirror polish and stainless steel handle.

TWK Rotating Spray Nozzles

Molded nozzle that is cost effective and compact for keg, barrel or tank cleaning.

- 300 degree spray down pattern.
- Nozzle width 0.98"
- Made of PVDF, self lubricating and self cleaning.
- Maximum spray diameter 10 ft.
- Maximum temperature 180° F.
- Operating pressure 20 - 80 psi, flow rate 2 - 7 gpm.
- Maximum operating pressure 70 psi.
- Connection is 1/8" male NPT.

SKU #80-92	1 - 9	\$54.00
	10+	\$42.00

Static Spray Ball with Supply pipe & 2" TC Tank Adaptor

An inexpensive CIP set up, using an existing 2" ferrule on top of tank for vent, sanitary designed & construction.

Drop in set up of spray ball with liquid supply pipe welded with fitting in 2" TC.

Technical data:

- Tank Mount: 2" TC ferrule on exterior of tank dish head
- Water Connection: 3/4" NPT male
- Working Pressure: 14 - 44 psi (1 - 3 bar)
- Spray pattern: 360°
- Recommended Flow rate: 25 gpm @25 psi.
- Max. working temperature: 200° F (95° C)
- Wetting coverage: 6 ft.

SKU #80-99A	\$95.00
-------------	---------

Rotating Spray Ball

www.gwkent.com

A sanitary low flow cleaning spray head that is more efficient than traditional static spray balls. Rotating spray ball uses low volumes of water at low pressure, can be used in tanks up to 3000 gallon. Working principle is the flow of the cleaning liquid causes the head to rotate with fan jets laying out a swirling pattern throughout the tank. Rotating spray liquid generates a vibrating impact and cascading flow that efficiently cleans the inside wall of tank.

Technical data:

- Working Pressure: 14 - 44 psi (1 - 3 bar)
- Spray pattern: 360°
- Recommended Pressure: 30 psi (2 bar)
- Max. working temp. 200° F (95° C)
- Wetting coverage: 10 ft. (impact coverage 4 ft.)
- Lubricant: Self-lubricating with fluid

Miniature Bottle Spray Nozzles

Unique extremely small for bottles neck opening, Made of 316 stainless Steel.

- 300 degree spray down pattern.
- Length 1.1" by width 0.44" (11 mm).
- Made of 316L stainless steel with slide bearing.
- Maximum spray diameter 3 ft.
- Maximum temperature 375° F.
- Operating pressure 20 - 60 psi, flow rate 2 - 3 gpm.
- Maximum operating pressure 70 psi.
- Connection is 1/8" male NPT.

CIP Stainless Steel Mini Whirling Spray Nozzles

Made of 316L stainless steel with coverage of 3 to 5 ft. in diameter at 360 degrees. Tolerates a wide range of cleaners and solvents.

- Connection is 3/8" NPT male, nozzle can spin with pressure as low as 5 psi.
- Operating pressure 20 - 60 psi, flow rate 2 - 4 gpm.
- Maximum pressure 70 psi and maximum temperature 250° F.
- Nozzle length 2" by width 0.79" (20 mm).

PVDF Mini Whirling Spray Nozzles

Made of precision molded PVDF with coverage of 3 to 5 ft. in diameter at 360 degrees. Tolerates a wide range of cleaners and solvents.

- Connection is 1/2" NPT female, nozzle can spin with pressure as low as 5 psi.
- Operating pressure 20 - 60 psi, flow rate 2 - 4 gpm.
- Maximum pressure 70 psi and maximum temperature 190° F.
- Nozzle length 3" by width 1.18".

Item	Connection	Coverage	Pressure	SKU	Price

Static Spray Ball

Sanitary static spray ball with 360° coverage, made of 304 stainless steel.

Technical data:

- Working Pressure: 14 - 44 psi (1 - 3 bar)
- Spray pattern: 360°
- Recommended Flow rate: 25 gpm @25 psi.
- Max. working temperature: 200° F (95° C)
- Wetting coverage: 6 ft.

304 stainless steel	Connection	SKU	Price
Static Spray Ball	1-1/2" TC	80-97	\$39.00
Static Spray Ball	1" Pin-End	80-98	\$39.00
Static Spray Ball	1.5" Pin-End	80-98A	\$39.00
Static Spray Ball	3/4" FNPT	80-99	\$39.00

Static Spray Ball	1.5" butt-weld	80-994	\$39.00
Mini static Spray ball 1-1/8"	1" pin-end	80-995	\$39.00

Screen Gasket

Screen gaskets are used in processing pipeline systems for beverage industries. Screens are made of 316 stainless steel for straining small amount of particles during liquid transfer. Gasket material is made from FDA compliant EPDM material. Screen material is 316 L. stainless steel.

Item	Gasket	Screen Mesh	SKU	Price
1-1/2" Screen Clamp Gasket 10 mesh	EPDM	10 mesh	40MPUS-15	\$44.00
1-1/2" Screen Gasket 20 Mesh	EPDM	20 mesh	40MPUS-15E	\$44.00
1-1/2" Screen Gasket 50 Mesh	EPDM	50 mesh	40MPUS-15M	\$44.00
1-1/2" Screen Gasket 100 Mesh	EPDM	100 mesh	40MPUS-15F	\$44.00
1-1/2" Screen Gasket 150 Mesh	EPDM	150 mesh	40MPUS-15X	\$44.00
2" Screen Clamp Gasket 10 mesh	EPDM	10 mesh	40MPUS-20	\$46.00
2" Screen Gasket 50 Mesh	EPDM	50 mesh	40MPUS-20M	\$46.00
2" Screen Gasket 100 Mesh	EPDM	100 mesh	40MPUS-20F	\$46.00
3" Screen Clamp Gasket 10 mesh	EPDM	10 mesh	40MPUS-30	\$59.00

Sock Screen Gasket

316 stainless steel 16 mesh screen. All material meets FDA, 3-A sanitary standard. Coverage of 300% more area than conventional screen gasket.

Mesh Size	Micron	Inch
10 Mesh	2000	0.0787
16 Mesh	1190	0.0469

Teflon (PTFE) Gasket

Teflon is the material of choice whenever low temperature flexibility or gasket memory is not required. Teflon is not recommended where large temperature variations occur frequently, leakage can occur. Teflon has almost no extractables, has a low absorption rate and excellent resistance to process fluids. It can remain in service for longer periods of time in both water and steam for continuous use.

Item	SKU	Price
1/2" Teflon Clamp Gasket	40MPG-12	\$1.50
3/4" Teflon Clamp Gasket	40MPG-34	\$1.50
1" Teflon Clamp Gasket	40MPG-10	\$1.50
1-1/2" Teflon Clamp Gasket	40MPG-15	\$1.50
2" Teflon Clamp Gasket	40MPG-20	\$1.50
3" Teflon Clamp Gasket	40MPG-30	\$2.50
4" Teflon Clamp Gasket	40MPG-40	\$3.00

Diffuser Aeration Gasket

Sanitary diffuser gaskets provide increased oxygen content and can also be used to diffuse digester gases such as hydrogen sulfide and sulphur dioxide. To introduce ozone for oxidizing and destroying bacterial and organic chemical contaminants and for carbon dioxide injection for recarbonization and pH adjustment. 316 stainless steel 2 micron porous disc molded with EPDM gasket. Requires 2 psi push gas. Meets 3-A, USDA, ASME-BPE, and pharmacopeia Class VI standard.

Item	SKU	Price
1-1/2" Diffuser Aeration Gasket	40MPD-15	\$125.00
2" Diffuser Aeration Gasket	40MPD-20	\$145.00

Tuf-Steel Gasket

Unique 50/50 blend of non-pigmented PTFE and 316 L. water atomized and passivated stainless steel. A tough gasket as steam in place hygienic seal, excellent chemical resistance. Tuf-Steel gasket eliminates maintenance needs and helps prevent system downtime by eliminating cold flow creep. Ideal

for steam pipe connections in both extreme cold (-100 degree F.) and hot conditions (up to 500 degree F.). Metal detectable. Meets USDA, 3-A sanitary standard, pharmacopeia class VI and ASME-BPE standard.

Item	SKU	Price
1" Tuf-steel Clamp Gasket	40MPGTS-10	\$6.95
1-1/2" Tuf-Steel Clamp Gasket	40MPGTS-15	\$5.95
2" Tuf-Steel Clamp Gasket	40MPGTS-20	\$7.95
3" Tuf-Steel Clamp Gasket	40MPGTS-30	\$9.95

Our sanitary Buna gaskets meet 3-A and USDA sanitary standards, buna material is not recommended for strong acids and ozone.

Buna Black Gasket

Item	SKU	Price
1" Buna Black Clamp Gasket	40MPU-10	\$0.75
1-1/2" Buna Black Clamp Gasket	40MPU-15	\$0.50
2" Buna Black Clamp Gasket	40MPU-20	\$0.50

3" EPDM Black Clamp Gasket	40MPE-30	\$2.50
4" EPDM Black Clamp Gasket	40MPE-40	\$3.00

Viton Gasket

Provides high acid, steam & heat resistance. Meet 21CFR 177.2600. Passed U.S.P. Class VI Cytotoxicity testing. Temperature range -20° F to 410° F.

Item	SKU	Price
1/2" Viton Clamp Gasket	40MPSFY-12	\$2.00
3/4" Viton Clamp Gasket	40MPSFY-34	\$2.00
1" Viton Clamp Gasket	40MPSFY-10	\$2.00
1-1/2" Viton Clamp Gasket	40MPSFY-15	\$2.00
2" Viton Clamp Gasket	40MPSFY-20	\$3.00
3" Viton Clamp Gasket	40MPSFY-30	\$5.50
4" Viton Clamp Gasket	40MPSFY-40	\$6.50

Silicone Gasket

High purity silicone hygienic seals are the ideal choice for use in production facilities of pharmaceutical, biotechnology, food, beverage and high-purity water. Our silicone seals withstand temperature extremes, moisture and steam. Seal with smooth finish resists product adhesion. These odorless, tasteless, non-toxic hygienic seals maintain product integrity and can be autoclaved and gas sterilized. Meets U.S. pharmacopeia class VI, ASME-BSP, USDA and 3-A standard.

Item	SKU	Price
1/2" Silicone Clamp Gasket	40MPX-12	\$1.50
3/4" Silicone Clamp Gasket	40MPX-34	\$1.50
1" Silicone Clamp Gasket	40MPX-10	\$1.50

2" Silicone Clamp Gasket	40MPX-20	\$1.50
3" Silicone Clamp Gasket	40MPX-30	\$2.50
4" Silicone Clamp Gasket	40MPX-40	\$3.00
6" Silicone Clamp Gasket	40MPX-60	\$16.00

Perlick Style Sample Valve 1-1/2” TC

Compact and sanitary design sample valve in 316 stainless steel with 1-1/2” TC connection. Special hook design for carbonated beverage attachment for sampling. SKU #80-12 - \$99.00

Perlick Style Sample Valve 3/8” NPT

Compact and sanitary design sample valve in 316 stainless steel with 3/8” male NPT connection. Special hook design for carbonated beverage attachment for sampling. SKU #80-124 - \$99.00

Perlick Style Swivel Sample Valve 3/8” NPT

Compact and sanitary design sample valve in 304 stainless steel with swivel nut in 3/8” male NPT connection. The Swivel nut allows adjustment of nozzle position. SKU #80-125 \$99.00

Sample Valve 1-1/2” TC

Will mount to a 1-1/2” TC ferrule on tank, made of 304 stainless steel with long body. Sanitary design and construction, easy to clean. SKU #80-10 - \$45.00

DIN Sample Valve

DIN 15 mm Liner with nut sample valve for tank connection (male ferrule 15 mm required) SKU #DIN75-15 \$95.00

Oak Barrel Sample Valve

For installation to oak barrel or cask. A 5/8” hole needs to be drilled on barrel for sample valve to be threaded into wood. SKU #80-129 \$69.00

Manifold

Perfect for filling and bottling run, or any multi-tasking operation, 304 stainless steel sanitary designed and construction.

Item	Connection	Total Length	SKU	Price
3 port Manifold	1.5” TC	16”	3201	\$125.00
5 port Manifold	1.5” TC	20”	3200	\$145.00

Tank Therometer

Bimetal thermometer in stainless steel for tank thermometer well. Superior quality and accuracy with calibrate reset screw.

Features:

- Dial face: 3” stainless steel.
- Connection: 1/2” NPT.
- Accuracy: +/- 2%.
- Dual scale F & C in color

Item	Temp. Range	Probe Length	SKU	Price
Tank Thermometer	0-150°	2.5”	2823-1	\$16.00

Tank Thermometer Well

- Sanitary 304 stainless steel thermo-well, probe opening 8 mm.
- Thermometer thread connection is 1/2” NPT female

Item	Probe Length	Tank Mount	SKU	Price
2-1/2” Sanitary TC Thermometer Well	2-1/2”	1-1/2” TC	80-153	\$39.00
5” Sanitary TC Thermometer Well	5”	1-1/2” TC	80-154	\$39.00
9” Sanitary TC Thermometer Well	9”	1-1/2” TC	80-155	\$39.00
9” probe Thermometer Well	9”	Welding	80-15	\$49.00

Tank Level Sight Gauge Valve

Tank sight gauge for liquid level display. Bottom sight gauge is a 3-way valve to control tank volume display. Glass tube for sight gauge is not included.

Item	SKU	Price
Level Sight Gauge Bottom Valve 1-1/2” TC	80-21	\$95.00
Level Sight Gauge Top Valve 1-1/2” TC	80-22	\$69.00

Pressure Arm Manifold

- 304 stainless steel sanitary manifold, length 5-11/16”
 - Pipe diameter 1-1/2”, end connection 1-1/2” tri-clamp.
 - One 1/4” NPT female for pressure gauge connection
 - One 1/4” Male NPT for ball valve connection
 - Pressure gauge & ball valve not included with manifold
- SKU #3215 \$99.00

Manhole Covers

www.gwkent.com

Manhole covers designed for welding on top of tank, available in 304 and 316 stainless steel and sanitary polished. Complete manhole assembly, includes door, seals and welding neck ring. Seals material available in silicone or EPDM.

Manway Doors

Premium stainless steel tank manway doors. Includes door seal and neck ring for welding, sold as complete door assembly for tank fabrication. Available in 304L stainless steel from stock. 316L material is available from stock or special production.

13" x 17" Square Manway Doors

- 304 stainless steel
 - Door opening 13" x 17", opens outward
 - Door thickness 14 gauge (2 mm), welding neck ring height is 2.5"
 - Maximum pressure 15 psi
- SKU #80-451 \$395.00

16" x 21" Square Upright Manway Doors

- 304 stainless steel
 - Door opening 17" x 20", opens outward
 - Door thickness 14 gauge (2 mm), welding neck ring height is 2.5"
 - Maximum pressure 15 psi
- SKU #80-452 \$495.00

Rectangular Side Manway Door 17" x 21"

- 304 stainless steel
 - Door opening 17" x 21", opens outward with two bars and stainless steel locking handle
 - Door thickness 14 gauge (2 mm), welding neck ring height 2.37"
 - Maximum pressure 15 psi.
- SKU #80-483 \$550.00

Square Side Manway Door 12" x 16.5"

- 304 stainless steel
 - Door opening 12" x 16.5", opens outward with single bar and stainless steel locking handle
 - Door thickness 14 gauge (2 mm), welding neck ring 2"
 - Maximum pressure 7 psi
- SKU #80-48 \$450.00

Upright Side Manway Door 21" x 16"

- 304 stainless steel
 - Door opening 21" x 16", opens outward with two bars and stainless steel locking handle
 - Door thickness 14 gauge (2 mm), welding neck ring height 2.5"
 - Maximum pressure 15 psi
- SKU #80-482 \$550.00

16" Round Side Manway

- 304 stainless steel
 - Opens outward with stainless steel handle.
 - Door thickness 1.5 mm (16 gauge), welding neck ring height 3.15"
 - Maximum pressure 15 psi.
- SKU #80-49 \$550.00

Instrument Check Valve

- 316 stainless steel precision instrument check valve
 - 1/4" male NPT connection for liquid or gas application.
 - Measurement 5/8" x length 2"
- SKU #989-14 \$69.00

Ball Check Valve 1/4"

- Inexpensive ball check valve in 304 stainless steel
- SKU #85-60 Male NPT x female NPT \$9.50
SKU #85-61 Male NPT x male NPT \$9.50

Volume Conversion

1 mL = 0.035 fl. oz.
1 fl. oz. = 30 mL
1 L. = 1000 mL
1 L. = 0.2642 gal.
1 gal. = 3 785 mL
1 hL = 100 L.
1 hL = 26.4 gal.

Mass Conversion

1 kg. = 1000 g.
1 kg = 2.2 lb.
1 g. = 1000 mg.
1 metric ton = 1000 kg.
1 US ton = 2000 lb.
1 US ton = 907 kg,

Other Conversion

1 ppm. = 1 mg / L.
1 brix = 1% sugar (wt./vol)
1 lb./1000 gal = 454 g/1000 gal.
1 kg / hL = 1000 g./hL.

How to determine TC size?

Tri Clamp	Ferrule OD
1"	= 1.984"
1-1/2"	= 1.984"
2"	= 2.516"
2-1/2"	= 3.047"
3"	= 3.579"
4"	= 4.682"

1" Tri-Clamp

1-1/2" Tri-Clamp

2" Tri-Clamp

© G.W. KENT, INC. JAN. 2016

How to determine national pipe size??

OD Fraction Inch (for quick reference only)	Pipe Thread Size
5/16	1/16
13/32	1/8
35/64	1/4
43/64	3/8
27/32	1/2
1-3/64	3/4
1-5/16	1
1-21/32	1-1/4
1-29/32	1-1/2
2-3/8	2
2-7/8	2-1/2
3-1/2	3
4	3-1/2
4-1/2	4

Pipe sizes do not refer to any physical dimensions. The outside diameter of each pipe or fitting must by measured and compared to the table for size identification. For example, a 3/4" NPT pipe thread has an outside diameter of 1.050 inches.

www.gwkent.com

A strainer is a device that removes larger particles from liquid, using a perforated tube or mesh screen. Strainers can be used individually or in tandem with filter to remove larger particles, ideal for removing grain or hop particles prior to heat exchanger.

Sanitary Strainer

Sanitary strainer contains a housing and a perforated stainless steel basket insert for removal of particles larger than 1/4". Strainer can be used with a 10 micron screen gasket (not included) for finer particles removal. Liquid entry from top/side port and exit on bottom. Rubber band is included to hold sock screen for additional straining. Supersock is available to fit over screen for finer particle (not included).

- Material 304 stainless steel, sanitary construction.
- Basket insert diameter 3" and length 30", hole 1/4" for high capacity flow.
- Inlet & outlet 2" TC

Super Strainer Dia. 4" x 40" L. SKU #2023 \$495.00

Short Strainer Dia. 4" x 17" L. SKU #2022 \$395.00

Supersock

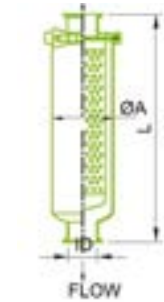

Designed to fit over screen of superstrainer for finer particle removal. Pack 10 per bundle.

SKU #4046 \$5.00 / bundle of 10

Basket Strainer

Offer maximum flexibility in high capacity applications. Large surface area and side entry port allows high flow rates with minimal pressure drop. Strainer handles medium to fine straining and is available with a wide variety of mesh sizes (60 - 400 mesh).

- 304 stainless steel
- Polished 32 Ra
- Connection 2" tri-clamp
- Nominal Temperature 200 F
- Max. working pressure 200 psi (@70 F)

Tube Strainer

- Diameter 4" x Length 9.85"
- Connection 2" tri-clamp
- Mesh Basket: size 60 mesh

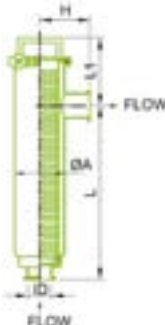

SKU #2026 \$595.00

Side Entry L-type Strainer

- Diameter 4" x Length 13.94"
- Connection 2" tri-clamp
- Mesh Basket: size 60 mesh

SKU #2025 \$795.00

Bottom Entry L-type Strainer

- Diameter 4" x Length 13.94"
- Connection 2" tri-clamp
- Mesh Basket: size 60 mesh

SKU #2024 Strainer \$695.00

Streamline Strainer

Sanitary streamline strainer contains a perforated stainless steel basket and a wire mesh basket that allows removal of large particles, seeds hops, and foreign particles from process stream. Strainers are suitable for horizontal or vertical mounting, directly into the pipe work.

- Material 304 stainless steel, sanitary construction.
- Two baskets, perforated screen and mesh screen.
- Inlet & outlet 2" TC
- Overall length (clamp to clamp) is 15-1/4".

SKU #2020	Streamline Strainer	\$345.00
SKU #2020A	Replacement fine mesh screen	\$49.00

Sanitary Pipe Spool

Pre-fabricated sanitary pipe spool in 304 stainless with tri-clamp ferrule sanitary welded on 2 end for quick easy connection. For 316 L. pipe spoon, please email us for stock availability.

Sanitary Processing Piping

Stainless steel pipe for food and beverage processing, with inside and outside polished and meets 3A standard. We stock both 304 stainless and 316 stainless steel. All tube in 20 ft. length and sold in full 20 ft. length only. Cutting upon request with cutting charge applied. Please email quote, price changes based on commodity pricing and volume.

Features:

- ASTM 249-08 / ASME SA 249-E07 3A 33-02 saitary pipe, 0.065 wall
- Welded tube, inside and outside polished, ID 20u in Ra and OD 30u in Ra.
- Stock availalbe in 1", 1-1/2" and 2" size, in 304 stainless steel.

24 hours • 7 days a week

Butt Weld Valves & Fittings

Check Valves Butt Weld

304L stainless steel, sanitary mirror polish and meets 3-A standards.

Item	SKU	Price
1" Check Valves Butt Weld	95-10	\$85.00

- Standard fork opening is 7" for easy racking, with double cross bar support.
- Made of 304L stainless steel, thickness 1.5 mm (16 gauge).
- Rack is electro-polished after treatment of pickling and passivating process. Stainless steel Surface is bright, clean and microscopically smooth. Better rust and corrosion protection, easy to clean.
- Stacking height of 5 layers.

Item	Material	Stacking	Pallet Jackable	SKU	Price
Double Barrel Rack	304 stainless steel	Up to 5 high	No	2991	\$195.00
Base Half Rack	304 stainless steel	No	Yes	2991-2	\$115.00

Fits 59 gallon standard Bordeaux, Burgundy and American barrels. Standard fork opening is 7" for easy racking, with double cross bar support. Made in U.S.A.

Item	Material	Stacking	Pallet Jackable	SKU	Price
Double Barrel Rack	Powder Coated Mild Steel	Up to 5 high	No	2993	\$129.00

- Made of 304L stainless steel, 14 gauge (2 mm thickness)
- 75 gallons capacity with one 2" TC ferrule welded on belly.
- Fits on standard barrel rack, with roll rim.
- Measurement: 25.6" diameter x 40" height

SKU #2757	Quantity 1 - 11	\$849.00
	12 +	\$799.00

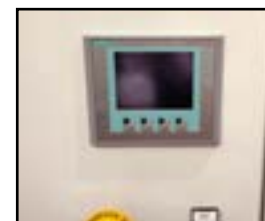

Automatic Barrel Washing & Steam Cleaning Machine

Automatic barrel cleaning machine for labor saving and superior barrel cleaning. Machine has Siemens PLC controller, automatic cleaning & steam sanitizing cycle and bung hole rotating & positioning sensor control set up. High impact cleaning & steam sanitizing nozzle cleans two barrels in 3 minutes cycle.

- Made of 304 stainless steel and mounted on wheel.
- Automatic bung hole position for spray nozzle entry.
- 3-way valve for product collection and cleaning water discharge.
- High pressure washing & cleaning with patented 3D washing nozzle.
- Working temperature up to 90°
- Designed for pressure washer (not included), up to 100 bar.
- Steam line connection for sanitizing (steam machine not included)
- Remote control for forklift driver
- 3-phase 208 v - 230 V. 60 Hz. 1.8 kw motor with on/off switch

SKU #2996 - \$27,950.00

Manual Barrel Washing & Steam Cleaning Machine

Manual barrel cleaning machine without lifting of barrel. Machine has high impact cleaning & steam sanitizing nozzle with motor driven gear. Barrel can be rolled on the machine loading ramp and allow washing nozzle to enter bung hole.

- Made of 304 stainless steel and mounted on wheels.
- High pressure washing & cleaning with patented 3D washing nozzle.
- Working temperature up to 90 C
- Designed for pressure washer (not included), up to 100 bar.
- Steam line connection for sanitizing (steam machine not included)
- 3-phase 208 v - 230 V. 60 Hz.

SKU #2996 - \$3295.00

Barrel Washing Stand

Stainless steel stand for barrel cleaning with a rotating jet spray barrel cleaning head, efficiently clean barrel. For best cleaning result, we suggest hot water use with water pressure of 40 to 60 psi.

- Rotating barrel cleaning nozzle included.
- stainless steel 3/4" NPT ball valve for water shut-off included.

SKU #2986 - \$325.00

Bulldog Barrel Transfer Tube

A simple device to pressurize barrel and move liquid out of barrel. Very gentle and no air introduced into barrel. Recommended pressure 10 psi.

- 1” stainless steel tube
- Connection is 1-1/2” TC with adjustable screw for height.
- Includes 1” sight glass and fitting for monitoring of lees.
- Gas connection is 1/4” MNPT and includes shut off ball valve.

SKU #2980 - \$395.00

Moog Barrel Cleaning System

- 304 stainless steel, with 3 dimension rotating cleaning head reaches every corner inside the barrel.
- Suction foot allows dirty water siphoning and removal from barrel.
- Working temperature up to 90° C.
- Can be connected to high pressure washer with minimum flow rate 3.4 gpm (pressure washer is not included).
- Minimum bung hole size 1.45" (37 MM). Longer suction pipe available upon request.
- 1-phase 115 VAC 60 Hz.
- SKU #2989 \$2,895.00

Barrel Topping Gun

Barrel topping gun can be used with pressurized keg to add small amount of wine to barrel. With 1/2” hose barb connection and push down handle can be used with barrel stacked on barrel rack, it’s easy to use and efficient.

SKU #2984 \$125.00

Barrel Cleaning Nozzle

- Features:
- Coverage of 3 to 6 ft in diameter in 180°
 - Connection 3/4” NPT female
 - Diameter 1.25” and length 2.75”
 - Working pressure 1 to 4 bar
- SKU #80-93 \$125.00

L-Shape Wand

3/4” wand with NPT pipe connection to barrel cleaning nozzle and water hose. This handy wand allows you to reach into barrel bung hole while leaving barrel on rack. Barrel cleaning nozzle sold separately.

SKU #80-93A \$24.00

Oak Chip Infusion Tube for Barrel

For neutral barrel, adding oak flavor is easy for this 1” stainless steel tube with holes to hold oak chips for flavor extraction. Sanitary construction in 304 stainless steel with a silicone plug and a silicone stopper for bung hole. Easy to clean, can be removed from barrel at desired time.

SKU #2981 - \$49.00

www.gwkent.com

Silicone Fermentation PLUS Bung

Two piece designed with open vent for fermentation to allow CO2 to escape from barrel. When center silicone piece is pushed in and locked, it can be used as a solid bung for aging.

- Silicone material with easy grab rim.
- 2 piece design with vent on center for fermentation.

SKU #2966 1 - 100 \$4.95
100+ \$4.00

Silicone Barrel Fermentation Bung

Two piece designed, with open vent it can be used for fermentation to allow CO 2 to

escape from Barrel. When center silicone piece is pushed in and locked, it can be used as a solid bung for aging.

Silicone Barrel Bung

48 x 55 mm solid barrel bung to seal barrel for aging. Flange top fits over bung hole for easy removal.

Item	SKU	Price

Oak Barrel Sample Valve

For installation to oak barrel or cask. A 5/8” hole needs to be drilled on barrel for sample valve to be threaded into wood.

304 stainless steel.
SKU #80-129 \$69.00

Curved Barrel Racking Tube

Barrel racking tube can be used with pump to move wine out of barrel. Curved shape racking tube with 1” stainless steel pipe in 304 stainless steel, length is 32” with a 1-1/2” TC connection.

SKU #2988 - \$75.00

Straight Barrel Racking Tube

304 stainless steel barrel racking tube with 1-1/2” TC connection and ajustable height for less. Sanitary quality.

SKU #2982 - \$60.00

Sulfur Disque Holder for Barrel

Made of 304 stainless steel with silicone stopper to fit and seal barrel bung hole with Sulfur gas. Easy removal from barrel to barrel. Mesh basket with a wire to secure sulfur disque in place.

SKU #2920 - \$24.00

Sulfur Disque

Use Sulfur disque when barrel is empty for short period of time. Repeat use every 3 weeks for storage of empty barrel to prevent mold & bacteria growth. 5 gram size for 50 - 60 gallon barrel

SKU #2919 \$29.00 / 2.2 lb. box

Oak Cask Adapter

For installation to oak cask or Puncheon, need a 35 mm hole on cask. Adapter has a 1-1/2” TC connection, so sample valve or ball valve can be installed to cask.

SKU #8061 \$69.00

Straight Pyrex Glass Barrel Thief

Pyrex glass thief with 1-1/2" OD by 24" long
SKU #2983-7 \$65.00

Curved Pyrex Glass Barrel Thief

Curved pyrex glass thief with 1-1/2" OD by 24" long .
SKU #2983-5 \$79.00

Small Glass Thief

Glass thief straight, diameter 3/4" x 11-3/4" L. Pack 10 per box.
SKU #2983-2 \$39.00 / case of 10.

15.5 gallon Barrel Topping Keg

Brand new stainless steel kegs, capacity 15.5 gallons with 4" TC ferrule opening for easy filling and cleaning. Equipped with 1/2" NPT liquid outlet and 1/4" NPT gas inlet connection. Equipped pressure relief valve and a 1-1/2" bottom/side clean out port. Flow rate is 2 to 3 gallons per minute at 20 psi. Keg can also be used for storage, dispensing, fermentation and carbonation set up. Barrel topping gun, hoses and gas set up is not included.
SKU #2530 \$375.00

5.16 gallon Barrel Topping Keg or Wine Dispensing

Brand new stainless steel kegs 5.16 gallons capacity with 2" TC ferrule opening for easy filling and cleaning. Equipped with 1/2" NPT liquid outlet, 1/4" NPT gas inlet connection, & pressure relief valve. Flow rate is 2 to 3 gallons per minute at 20 psi. Keg can also be used for storage, fermentation and carbonation set up. Barrel topping gun, hoses and gas set up is not included.
SKU #2522 \$285.00

15.5 gallon Cellar Keg with 2" TC Top

Brand new stainless steel kegs, capacity 15.5 gallons with 2" TC ferrule welded on top of keg. Designed for small lot storage. Fitting, tri-clamp and gasket is not included, please purchase them separately.
SKU #2520 \$169.00

www.gwkent.com

Our oak products allow winemaker to add oak flavor and character from a wide variety of oak and toast levels to wine. We offer premium oak products made with oak seasoned for 24 months, with unique toasting process to create flavor and aroma without harsh and bitter wood tannin components. Oak product can be placed in small tank or keg to extract oak flavor, which can be blended back with wine prior to transfer to tank.

Granular Oak Powder

For fast flavor extraction, granular oak powder is recommended, dosage is 1 to 2 pound per 1000 gallon of wine.

Item	Toasting	Flavor	Packaging	SKU	Price
French Oak Powder	Medium	Subtle vanilla, & butterscotch	50 lb. bag	4549-9	\$175.00
American Oak Powder	Light	Smooth & rich mouth feel	50 lb. bag	4549-1	\$95.00

American Oak Chips	Heavy Toast	Carmel, smokiness & rich	50 lb. bag	4547-3	\$75.00

Oak Barrel Sticks

For use in neutral barrels, each set consists of two 16 piece of linked sticks to enhance flavor. Medium toast with 24 month air seasoned French oak, easy to maintain and re-use. Stick measures 13" long x 1-1/4" wide x 3/8" thick, bundle measures 9.6 sq. ft. of oak surface.

Item	Toasting	Packaging	SKU	Price
French Oak Barrel Sticks	Medium	2 x 16 pcs. link	297-6	\$59.00
American Oak Barrel Sticks	Medium	2 x 16 pcs. link	297-7	\$49.00

Oak Stave Tank Insert

For use in stainless steel tanks, oak staves measure 40" long x 3" wide x 3/8" thick. Assembled with 10 pcs. staves into a FAN bundle and provides 26 sq. ft. of oak surface. Medium toast with 24 month air seasoned French oak. Each set is sufficient for about 100 gallons of wine.

Item	Toasting	Packaging	SKU	Price
French Oak Stave Tank Insert	Medium	10 pcs./ bungle	297-8	\$59.00
American Oak Stave Tank Insert	Medium	10 pcs. / bungle	297-9	\$49.00

Yeast, Cellar Ingredient & Chemical

www.gwkent.com

Fusion Maurivin Wine Yeast

Selected for its ability to increase aroma and palate complexity, with rapid fermentation rate at 64 - 86° F. Fusion strain is considered a low to moderate nitrogen consumer with alcohol tolerance in the range of 15% - 16%. Good flocculation strain and low foaming. Fusion has the capacity to release varietal white aromatics including peach, nectarine, lemon zest and subtle floral aromas. Highly recommended for Chardonnay, Semillon, Chenin Blanc, Cabernet, Merlot and Malbec. SKU #304-12 \$ 29.50/ 500 gram pouches

AWRI 796 Maurivin Wine Yeast

Saccharomyces cerevisiae strain with medium vigor, used extensively for its ability to allow the full expression of varietal fruit and good palate structure. Popular for varietal red wines such as Zinfandel, Merlot, Cabernet and Shiraz and varietal white wines such as Chardonnay, Semillon and Riesling. SKU #304-2 \$25.50 / 500 gram pouches

AWRI 350 Maurivin Wine Yeast

Saccharomyces cerevisiae strain, a medium vigour, flocculating yeast which produces significant amount of ester and high alcohol giving a distinct floral/aromatic character to young, fresh reds and whites, such as Gamay, Gewurztraminer and Muscat. SKU #304-3 \$25.50 / 500 gram pouches

Maurivin 1503 Wine Yeast

Saccharomyces cerevisiae strain, selected for its contribution to mouth-feel, with the palate being intense, round and full. Similar fermentation characteristics to Maurivin PDM, allowing the varietal fruit characters to be displayed. Alcohol tolerance is good in the range of 15%. SKU #304-7 \$29.50 / 500 gram pouches

BP25 Maurivin Wine Yeast

BP725 is ideally suited for varietal red winemaking. With its ability to enhance color and possessing a high alcohol tolerance. BP725 is often used for fruit driven red varieties such as Shiraz, Zinfandel, Cabernet Sauvignon, Grenache & Merlot. SKU #304-8 \$25.50/ 500 gram pouches

Premieur Maurivin Wine Yeast

Saccharomyces cerevisiae strain which has been selected for its suitability in the production of young, crisp fresh wine. It enables the production of a significant amount of esters and higher alcohols that denotes a fruity character to the white wine, and its capacity to consume high quantity of malic acid during fermentation. SKU#304-4 \$25.50 / 500 gram pouches

Sauvignon L3 Maurivin Wine Yeast

Saccharomyces cerevisiae strain, isolated from a vineyard in Bordeaux, France. It is a medium vigour yeast that allows full expression of Sauvignon Blanc varietal character. Popular also for Riesling production. SKU #304-5 \$25.50 / 500 gram pouches

Elegance Maurivin Wine Yeast

Saccharomyces cerevisiae strain, with ability to impart fragrant, perfume-like aromas to the wine. Elegance also has ability to ferment clarified juices at cooler temperatures and lift varietal aroma. Elegance has become a popular strain for a range of fruit-driven white varieties such as Riesling, Sauvignon Blanc, Chardonnay and Semillon. SKU #304-6 \$25.50 / 500 gram pouches

R2 Maurivin Wine Yeast

Saccharomyces cerevisiae (historically bayanus) strain isolated by Petaluma Pty Ltd. A vigorous fermenter which performs well at low temperature and contributes high levels of floral and fruity esters. Suitable for the production of aromatic white wines such as Chardonnay, Chenin Blanc, Semillon, Sauvignon Blanc and Riesling. SKU #304-14 \$25.50/ 500 gram pouches

www.gwkent.com

B Maurivin Wine Yeast

Maurivin B has the capacity to consume up to 56% of malic acid during primary fermentation. Maurivin B has ability to enhance varietal aroma flavor and color and is recommended for red varieties such as Syrah, Cabernet Sauvignon, Zinfandel and Pinot Noir. The optimum fermentation temperature at 77° - 86° F. Alcohol tolerance of 14% - 15%. SKU #304-13 \$ 25.50/ 500 gram pouches

PDM Maurivin Wine Yeast

Saccharomyces cerevisiae strain, selected as suitable for secondary fermentation in sparkling wine production because of its good alcohol and low pH tolerance. It is a general-purpose strain, recommended for white and red wine production, and to restart stuck fermentation. SKU #304-1 \$19.50/ 500 gram pouches

Cru Blanc Maurivin Wine Yeast

Saccharomyces cerevisiae strain of medium vigour, noted for its ability to enhance mouth-feel, particularly for barrel fermented Chardonnay matured on yeast lees. Cru-Blanc is a relatively high producer of glycerol. This strain can also contribute fruity aromatics during fermentation such as tropical fruit, pear and grapefruit. Malolactic fermentation by lactic acid bacteria proceeds well following alcoholic fermentation by this yeast. SKU #304-15 \$25.50 / 500 gram pouches

Unity Maurivin Wine Yeast

A blend of two indigenous yeast strains isolated from Chardonnay fermentation in Burgundy, France, designed to enhance the aroma and flavor of premium Chardonnay. Good alcohol tolerance of 14 - 15%. SKU #304-17 \$25.50 / 500 gram pouches

EP2 Maurivin Wine Yeast

Saccharomyces cerevisiae strain origin from Epernay, France. EP2 is an ester producing yeast, typically floral and perfume in aroma. Recommended for fruity, sweet wine styles containing a high level of residual sugar. Alcohol tolerance up to 13 - 14%. SKU #304-16 \$19.50 / 500 gram pouches

Platinum Maurivin Wine Yeast

A new "Next Generation" non-GMO strain that does not produce any detectable hydrogen sulfide and enhances varietal aromas/flavors. Platinum is ideal for fermenting at low temperatures of 53° - 65°F. Platinum utilizes 16.5 gram of sugar to produce 1% alcohol, tolerance in range of 15% - 16% with killer activity. Platinum is recommended for fruit-driven red wines. SKU #304-9 \$ 33.50/ 500 gram pouches

Distinction Maurivin Win Yeast

A new "Next Generation" non-GMO strain that does not produce any detectable hydrogen sulfide and enhances varietal aromas/flavors. Distinction exhibits a short lag time and rapid fermentation rate at 68 - 86 F. Alcohol tolerance of 15% - 16% with killer activity. SKU #304-11 \$ 33.50/ 500 gram pouches

Lallemand Wine Yeast

Lalvin EC1118 (Prise de Mousse) Wine Yeast

For sparkling wine, last harvest, ice wine or fruit wine production. Selected by the Institut Oenologique de Champagne (IOC) in Epernay, France. Reference strain for sparkling wine. Steady low foamer, and is popular for barrel fermentations. It is an excellent choice for secondary fermentations of sparkling wine. Ferments well at low temperatures and flocculates with compact lees. Under low nutrient conditions Lalvin EC1118 can produce high amounts of SO2 (up to 50 ppm) and, as a result, may inhibit malolactic fermentation. SKU #3023-1 \$37.00 / 500 gram pouches

Lalvin 71B Wine Yeast

For Pinot Gris, Riesling, Grenache, rose, Red French Hybrids and fruit wine production. Isolated and selected by the INRA in Narbonne, France. Known for fermenting fruity rosé wines and semi-sweet whites because it produces long-lived aromas that result from the synthesis of relatively stable esters and higher alcohols. Softens high acid musts by partially metabolizing malic acid. Sensitive to competitive factors and may have difficulty competing with wild flora. Careful rehydration with Go-Ferm or Go-Ferm Protect and early inoculation will help Lalvin 71B® dominate in competitive conditions.
SKU #3023-2 \$37.00 / 500 gram pouches

Lalvin K1 V1116 Wine Yeast

To restart stuck fermentation, sauvignon blanc, white French Hybrids or fruit wine production. Selected by the ICV in Montpellier, France, among numerous killer strains isolated and studied by Pierre Barre at INRA. When fermented at low temperatures (16°C/61°F) with proper nutrition, it is a strong floral ester producer, especially in neutral or high-yield varieties. Among the high ester production strains, Lalvin V1116 is the most tolerant of difficult fermentation conditions such as extreme temperatures, high alcohol (18% v/v) and low turbidity. Ferments well under stressed conditions and is useful in restarting stuck fermentations, especially when relative fructose levels remain high.
SKU #3023-4 \$39.50.00 / 500 gram pouches

Red Star Cote des Blanc Wine Yeast

A Davis 750 strain from Geisenheim, Germany. Relatively slow fermenter, low foaming. This yeast requires nutrient addition for most chardonnay fermentations, produces fine, fruity aromas. Ferments best between 64 - 86° F.
SKU #3050 \$19.50 / 500 gram pouches

Red Star Pasteur Red Wine Yeast

A Davis 904 strain. It is a strong, even fermenter that produces full bodied reds. This yeast encourages the development of varietal fruit flavors, balanced by complex aromas, especially for Cabernet. This yeast is reported to give character to less robust red grapes or those picked before optimum development. Ferments best between 64 - 86° F.
SKU #3054 \$19.500 / 500 gram pouches

VR-44 Wine Yeast

A prise de mousse strain, was selected in Champagne region. Naturally resistant to difficult fermentation, a perfect yeast for sparkling wine & secondary fermentation. Alcohol tolerance 16%. Ferments best between 10 - 40° C.
SKU #3052 \$29.00 / 500 gram pouches

BCS-103 Champagne Wine Yeast

Strong fermentation yeast strain with a very high alcohol tolerance >16% and low volatile acidity and acetaldehyde production. Good resistance to low temperature fermentation 14° C. This yeast strain confer body and roundness thanks to its high glycerol production and promotes the development of fresh and clean aroma. Excellent for champagne or white wine production.
SKU #3053 \$29.00 / 500 gram pouches

ML Cultures

Viniflora Oeno ML Cultures

For Red wine ML application. Chr. Hansen direct inoculation cultures, no starter preparation is needed. Pack in 15 grams with instructions for up to 660 gallons of wine.
SKU #3037 \$95.00

Viniflora CH-35 ML Cultures

For White & Rose wine ML application. Chr. Hansen direct inoculation cultures, no starter preparation is needed. Pack in 15 grams with instructions for up to 660 gallons of wine.
SKU #3038 \$125.00

www.gwkent.com

www.gwkent.com

Go-Ferm

Go-ferm provides micronutrients in the non-stressful environment of the yeast rehydration water instead of the traditional method of adding micronutrients to the must. During rehydration, the yeast acts like a sponge, soaking up Go-ferm's bioavailable nutrients. By making key minerals and vitamins available to the selected yeast at the critical beginning of its stressful task, the yeasts viability increases and fermentation finish stronger. The use of Go-ferm results in significantly better overall health of yeast cells through out the fermentation, affecting fermentation kinetics and resulting in cleaner aromatic profile.
Use 2.4 lb. per 1000 gallon of go-ferm when rehydrating yeast.
SKU #4533 \$229.00 / 10 kg. (22 lb.) pack.

Laffort Malostart

A mixture of nutrients for lactic acid bacteria and wine detoxification agents, facilitating malolactic fermentation start-up, restart and accelerating fermentation kinetics. Malostart can be used on all types of wine: white, rose and red. Oenological use:

- Property: biological activator of the malolactic fermentation.
- Dosage: 20 g/hL (200 ppm).
- Preparation: Dissolve in 10 times its weight in water and add mixture 24 hours before inoculating with bacteria.

SKU #3034 \$65.00 / 500 gram

Fermaid K Fermentation Nutrient

Complete yeast nutrient by Lallemand. Fermaid K supplies ammonia salts (DAP) alpha amino nitrogen, sterols, unsaturated fatty acids, key nutrients (magnesium sulfate, thiamin, folic acid, niacin, biotin, calcium pantothenate) and inactive yeast. Fermaid K should be hydrated before adding to an active fermentation to avoid CO2 release. Recommended dosage is 2 lb. per 1000 gallons of wine, timing at 1/3 sugar depletion. Packed in 10 Kg. (22 lb.) box, price is per box.
SKU #4538 \$198.00 / 10 kg.

Fermaid O Organic Fermentation Nutrient

Recommended dosage is 2 lb. per 1000 gallons of wine, timing at 1/3 sugar depletion. Packed in 2.5 Kg. (5.5 lb.) box, price is per box.
SKU #4528 \$125.00 / 2.5 kg. (5.5 lb.)

Laffort Superstart / DynaStart

A yeast nutrient for use in active dry yeast rehydration water for a strong fermentation finish. DYNASTART® improves viability and the general metabolism of the yeast, and thus:

- Significantly increases resistance to ethanol.
- Avoids excessive production of volatile acidity.
- Improves aroma release optimisation / aroma production by the yeast.
- Reinforces starter culture efficiency.

SKU #4594 \$44.00 / 1 kg. (2.2 lb. bag)

Laffort Bioactiv Fermentation Nutrient

A formulation of survival factors, to be used when fermentation slows down or becomes stuck. Bioactiv fermentation aids provides physical support effect for the yeasts and detoxification of the must and the wine. Bioactiv also has a positive effect on malo-lactic fermentation. Packed in 1 kg. (2.2 lb.) bag.
Dosage: In the event of slow fermentation and low turbidity: 30 g/hL. Treatment for a stuck fermentation: 60 g/hL.
SKU #4514 \$34.00 / 2.2 lb. bag

Laffort Thiazote Fermentation Nutrient

In the event of an assimilable nitrogen deficiency in the must, it is essential to add nitrogen in order to ensure yeast multiplication and efficient alcoholic fermentation. It is advisable to correct the assimilable nitrogen content to between 180 and 220 mg/L. 10 g/hL of Thiazote produces on average of 21 mg/L of assimilable nitrogen. Thiazote is made of ammonium sulfate and thiamine. Dosage: 10 to 50 g/hL. Dosage should be based on the initial nitrogen content in the must, the potential alcohol degree and the turbidity. Packed in 1 kg. (2.2 lb.) bag.
SKU #4516 \$10.00 / 2.2 lb. bag

© G.W. KENT, INC. JAN. 2016

Laffort Tanin VR Supra

Adding at the start of fermentation before indigenous tannins are available, increases color stability. The ongoing polymerization can improve palate structure and significantly reduce or eliminate vegetal/herbaceous character. In conjunction with enzymes it is best to add the enzymes at the crusher and wait 6 - 8 hours before adding the tannin. Recommended dosage is 2 to 4 lb. per 1000 gallon. Pack in 2.2 lb. (1 kg.) bag.

SKU #4503 \$42.00 / 1 kg. (2.2 lb.)

Laffort Tan'Cor Tannins

Tan'Cor is a blend of grape and oak tannins. Specifically developed for use during tank and barrel aging for color stabilization and protection against oxidation. Tan'Cor is less harsh and integrates into the finished wine, it helps reduce the need for fining at the end of maturation. Recommended dosage is 1 to 2.4 lb. per 1000 gallon. Pack in 2.2 lb. bag

SKU #4551 \$69.00 / 1 kg. (2.2 lb.)

Laffort Tan'Cor Grand Cru Tannin

For use in aging high-quality red wines. Tan'Cor Grand Cru is a blend of highly polymerized and refined proanthocyanidic (grape) and ellagic (oak) tannins. Specifically developed for use during tank and barrel aging to increase structure, stabilize color and protect against oxidation. Tan'Cor Grand Cru enhances middle palate with the accrual of long-chain polyphenols, it also helps to reduce the need for fining at the end of maturation. Recommended dosage 1 - 2.4 lb. per 1000 gallon.

Pack in 2.2 lb. bag.

SKU #4552 \$195.00 / 1 kg. (2.2 lb.)

Laffort Tanin Galalcool

Tannin for the protection and treatment of white must and wine. Tanin galalcool is derived from the gall nut of oak trees.

Specifically developed for addition to white wine because it is colorless. Tanin galalcool inhibits laccase activity and is recommended for use on grapes that have Botrytis, other molds or rot. This tannin also prevents oxidation and protects against browning, it also adds structure and eliminates excess protein. Pack in 2.2 lb. bag.

SKU #4553 \$59.00 / 1 kg. (2.2 lb.)

Laffort Quertanin

products are a high quality and complex oak tannins preparations, depending of the level of extraction.

Quertanin contributes:

- ✓ Enhance the wine mouthfeel and palate length.
- ✓ Protect wine with regards to oxidation.
- ✓ Emphasize the aromatic profile while developing the overall complexity of the wine.

QUERTANIN® SWEET is a preparation of high quality toasted oak tannin. Enhances wine mouthfeel, roundness and palate length. Quertanin Sweet help developing the perception of sweetness with notes of Coconut and Vanilla

Dosage: 2 to 20 g/hL (20 to 200 ppm) Add quertanin sweet in 10% water solution or directly into the wine while stirring strongly. Then add to the mass of the wine during pumping-over or transfer in order to achieve optimum homogeneity. It is recommended to add Quertanin at least two weeks before bottling.

SKU #4572 \$295.00 / 1 kg. bag (2.2 lb.)

QUERTANIN® is a preparation of high quality toasted oak tannin. Enhances wine mouthfeel, roundness and palate length. Quertanin Intense help amplifies mouthfeel together with toasting characteristics.

SKU #4571 \$230.00 / 1 kg. bag (2.2 lb.)

www.gwkent.com

www.gwkent.com

Laffort Polyact

POLYLACT: A combination of PVPP and casein, used in preventive or curative treatments for oxidation. Its synergistic action avoids the indirect negative effects caused by large doses of PVPP or casein alone. Dosage: prevention: 15 to 30 g/hL - cure: 25 to 70 g/hL

SKU #4592 \$45.00 / 1 kg. (2.2 lb.)

Laffort Ichtyocolle Isinglass

Ichtyocolle is a fish-based fining and clarification agent. Ichtyocolle is a citric acid based preparation which facilitates dissolution in water on implementation.

Dosage:

Dissolve the ichtyocolle at rate of 10 g/L by stirring with the help of a blender. Leave to sell for around for 2 hours, the vigorously stir to divide up the particles and obtain the best possible dispersion. If gelling, dilute the solution with water (around 10%). The prepared solution must be used within 24 hours. Rapidly incorporate the solution into production and homogenise. Dosage: 2 to 3 gram per 100 liter (26 gallon).

SKU #4591 \$175.00 / 1 kg. (2.2 lb.)

Laffort Argilact

ARGILACT: This is used to accelerate the settling of white must. Argilact is a food grade soluble casein & montmorillonite. Wines are fresher and its use eliminates the herbaceous characteristics sometimes found in wines made from mechanically harvested grapes. It is used during the fermentation of base-wines for sparkling wine production for stability and to eliminate polyphenols extracted from black grapes during pressing. Dosage :40 to 100 g/hL

SKU #4589 \$25.00 / 1 kg. (2.2 lb.)

Laffort Gecoll Gelatin

Gelatins are obtained from the partial hydrolysis of the collagen contained in animal skins. They are used in the fining of red, white and Rosé wines, in order to clarify and stabilise the wine, and to improve their sensory qualities.

SKU #4587 \$16.00 / 1 kg. (2.2 lb.)

Laffort Casei-Plus

CASEI PLUS: CASEI PLUS is a potassium caseinate obtained from fresh pasturised skimmed mild. CASEI PLUS is a clarifying agent for white wines. CASEI PLUS eliminates oxidized phenolic compounds and reduces iron levels. CASEI PLUS can be dissolved without any addition of potassium bicarbonate, hence CASEI PLUS does not increase the pH of the wine. CASEI PLUS generates a lower volume of lees than regular casein. CASEI PLUS has a higher casein content (about 20 - 25% more) than regular casein which affords higher activity. Dosage: 40 to 60 g/hL.

Oenological applications:

- In the case of oxidised wine (browning). CASEI PLUS decolors the wine, contributing the color refreshment white also refining gustatory characteristics.
- In the case of botrytised harvest, CASEI PLUS is recommended in the treatment of young white and rose wine (and red in certain cases) to decrease the oxidized character.
- A clarification agent which contributes to preparing wine for filtration.
- CASEI PLUS produces a decrease in the iron content in white wines.

SKU #4590 \$38.00 / 1 kg. (2.2 lb.)

Laffort Oenosteryl Effervescent Tablets

Tablet, made from potassium metabisulphite and potassium carbonate. The effervescent effect facilitates good mixing of the SO2 in barrels or in tanks, user friendly and cost effective. Packaged 48 tablets per box.

Applications:

- The effervescent action of the bicarbonate provides mixing in barrel or small tanks while reducing time & labor needed for stirring.
- Safety equipment not required due to solid odorless tablet form, promoting greater workplace safety.
- Use in Macrobin or picking bins to inhibit oxidation of grapes and juice affected by botrytis, mold or to inhibit indigenous yeast.
- Used in tank before fermentation and directly into barrel after ML fermentation. Substitute for monthly sulphite barrel additions.

5 gram tablet SKU #4504 \$40.00

2 gram tablet SKU #4504-2 \$33.00

Laffort Egg Albumin

EGG ALBUMIN: A specific fining agent for Ultra-Premium wines destined for longer aging. Egg Albumin will refine the phenolic structure by removing the most aggressive tannins. Dosage 6-10 g/hL; 60-100 ppm
SKU #4588 \$44.00 / 1 kg. (2.2 lb.)

Laffort Lysozyme

Lysoyme : used in musts or wines as an inhibitor of lactic acid bacteria to avoid malolactic fermentation. Lysozym is a naturally occurring enzyme isolated from egg whites which can be used in wine to control lactic acid bacteria. Lysozym degrades the cell wall of gram-positive bacteria.
Dossage: 0.5 - 1.9 gram per gallon.
SKU #4585 \$395.00 / 1 kg. (2.2 lb.)

Ultrazyme

Powder pectinase enzyme for both red and white juices, leads to better settling clarification, cleaner fermentation and improved filterability. Dosage is 9 - 18 grams / ton of grapes.
Packed in 100 gram tin.
SKU #4532 \$45.00 / 100 gram tin

BIOLEES® has been developed as a result of understanding the natural phenomena associated with maturing wine on lees. Biolees softens harsh and aggressive tannins and polyphenolics in wine as well as gives a sweetness and increased mouthfeel to the wine. Biolees contains high quality yeast hulls that will gently “fine” red wines in a similar way as egg whites.
Dosage: 20 to 70 g/hL. Mix Biolees in 5 to 10 times its volume in water, homogenize by a pump over for tanks and stirring Biolees in barrels.
Biolees SKU #4593 \$85.00 / 1 kg. (2.2 lb.) bag
Autolees Biolees SKU #4576 \$195.00 / 1 kg. (2.2 lb.) bag.

www.gwkent.com

Potassium Metabisulfite

Adding potassium metabisulphite to crushed grapes helps control spoilage bacteria and wild yeast. Potassium metabisulphite also helps to prevent enzymatic browning of must and finished wine.
SKU #4501 55 lb. bag \$145.00
SKU#4509 1 kg. Winey \$5.60

Tartaric Acid

Prefered acid for adjusting acid levels in juice preparation. Adding 3.8 gram of tartaric acid adjust +.1% of acidity in juice.
SKU #4536 \$330.00 / 55 lb. bag
SKU #4537 \$12.00 / 2.2 lb. bag

Citric Acid

Catalog #4530 \$75.00 / 50 lb. bag

Malic Acid

Adding 3.4 grams of malic acid adjusts +.1% acidity in juice.
SKU #4531 \$119.00 / 50 lb. bag.

PVPP Filtering Aid

Powder PVPP formulated to prevent or treat compounds which cause pinking and browning. To use: Mix into 20 times its weight in cool water for 1 hour. Add the mixture to tank slowly and blend well and allow 1 week to settle out then filter.
SKU #4581 \$53.00 / 2.2 lb. bag.

© G.W. KENT, INC. JAN. 2016

Bentonite KWK

Exceptional clarification and protein absorption power for all wine. Recommended dosage is 2 lb. per 1000 gallons.
SKU #4502 \$25.00 / 50 lb. bag.

Citrogum Powder

Packed in 1 kg. (2.2 lb. bag).
SKU #4520 44.00

Cream of Tartar

To reduce the time for the stabilization process, a small amount of cream of tartar is added to the tank and roused for 1 hour into the cold wine. To use: 4 - 8 grams/liter is recommended dosing rate to achieve stability within 1 hour, in wine at 0 degree C.

SKU #4522 \$199.00 / 55 lb. bag
SKU #4580 \$19.00 / 2.2 lb. bag.

Ascorbic Acid

Add before copper to treat disulfides. Packed in 10 lb. bag.
SKU #4529 \$150.00 / 10 lb. bag
SKU #4535 \$20.00 / 2.2 lb. bag

Black PF Carbon

Packed in 1 kg. (2.2 lb. bag).
SKU #4526 \$20.00

Rice Hulls

SKU #5228 \$22.50 / 50 lb. bag

Laffort Celstab E466

Celstab is intended for wine stabilization in relation to potassium bitartrate crystalization. It is highly purified vegetal-origin cellulose polymer, with a low degree of polymerization and viscosity.
SKU #4575 \$16.00 / 1 kg. (2.2 lb.)

Laffort Erelte Coloring

For color adjustment in red wine, bench trial is necessary to acheive desired color target. Packed in 1 kg.
SKU #4573 \$99.00 / 1 kg. (2.2 lb.)

DAP Diammonium Phosphate

DAP is a good nitrogen source (21.7% nitrogen) for yeast. One pound of DAP equal to 26 ppm nitrogen, best used in conjunction with yeast nutrient, like Maurivin Gold, Fermaid K and Superfood.
SKU #4513 \$139.00 / 50 lb. bag
SKU #4512 \$8.95 /2.2 . bag

Potassium Sorbate

To prevent renewed fermentation in wine. Dosing rate 0.5 gram per gallon of wine with 50 ppm. of potassium metabisulfite.
Packed in 10 lb. bag
SKU #4534 \$75.00 / 10 lb. bag

Vacu Vin Wine Saver Blister Pack

Sold in case lot of 12 blister packs. Each blister pack consists of one Vacu Vin pump and one stopper for wine bottle. With vacuum indicator, clicks when vacuum is reached. Not suitable for sparkling wines.
SKU #2551 \$79.00

Vacu Vin Wine Stopper Blister Pack

Sold in case lot of 24 blister packs, each blister pack consists of 2 vacuum stoppers.
SKU #2552 \$69.00

Destainex Peroxy-Alkaline Detergent

Destainex is a multipurpose cleaner & sanitizer. Safe to use on any surface, odorless and does not taint. It removes color, protein stains, mold, mildew, organic soil and also an oxidizing agent to sanitize the cleaned surface in one process.

SKU #4584 \$39.00 / 11 lb. bag (5 kg.)

CLEANING

Cleanskin Alkaline Detergent

Cleanskin is a sodium based, powder cleaner for removing tartar build-up, discoloration, protein and organic soil from hard surfaces.

SKU #4583 \$39.00 / 11 lb. bag (5 kg.)

Sterox Cleaning Powder

A non-foaming, chlorine free, alkaline powder containing active oxygen, phosphates and additives. Formulated specially for use in wineries and food processing plants for cleaning, bleaching & deodorizing tanks, equipment and production area. Packing 50 lb.

Advantages:

- 4 in 1 action cleaning ability, antibacterial, bleaching and deodorizing
- Non chlorine with active oxygen, good solubility and no foaming, no fragrance and no odor
- Remove fermentation residues. Energy efficient, does not require hot water

Method of use: concentration between 0.5% to 1.5% depending on application, circulate for 15 minutes. Rinse with clean water

Sterox SKU #4561 \$105.00 / 50 lb. bag

Popular glass cleaning machine in German bars and restaurants. Spulboy Neptune T2000 machine is designed for in-sink operation, cleaning tank holds cleaning solution and fitted with a round center cleaning brush to clean inside of glass and side brush to clean outside of glass. Equipped with water rinser to spray clean glasses with fresh water that is connected to tap. Ideal for bar and tasting room without a commercial dishwasher. Requires sink and plumbing set up.

Temperature & Processing Control

Portable 1.5 ton Glycol Chiller

Air-cooled chiller designed to provide a glycol fluid temperature around 25° F, but has an operating range of 20° F. to 70° F.

Features:

- Air condensed refrigeration circuit
- 1.5 ton capacity (9346 btu) R134A refrigerant
- Hot gas bypass capacity control
- 1-phase, 208 - 230V. 60 Hz
- Includes 1/2 hp. rotary vane pump (2.4 gpm @ 60 psi) and 4 gallon tank
- NEMA 1 control cabinet
- Water in & out connection is 1/2" NPT
- Measure 19" x 25" x 32" H.

Catalog #307-01 \$5,395.00

Glycol Chiller

Designed for fermentation temperature control. Outdoor chiller designed to re-circulate clean fluid (water and glycol) to maintain the set temperature, which consists of a condensing unit, heat exchanger and controls built into a cabinet. All models include an insulated tank and two pumps. Chiller is made in America.

34° F. - Leaving water Temp.

44° F.- Enter water Temp.

Ambient Design: 90°F.

- Factory charge with Ozone friendly R-404A
- Liquid line enhanced Filter dryer.
- Sight glass with moisture indicator
- Thermal expansion valves.
- High/low pressure safety switches.

Condensing Unit:

- Coils are constructed of copper tubing with aluminum fins for durability.
- Top discharge allows warm air to be exhausted away from work area.
- Fan motor qualified for outdoor operation
- Compressor includes five year limited factory warranty.

Item	Power	BTU	Insulated Tank	Two Pumps	Refrigeration	SKU	Price

Kreyer MCK 181/S

Compact & efficient 5.54 ton chiller (19.4 kw) for cooling & heating application.

- Capacity 5.54 ton (66,480 BTU), Scroll compressor
- Electrical: 1-phase 230 V. 60 Hz.
- Cooling water temperature from -14 F (-10 C) to 77 F (+ 25 C)
- Equipped with a heating-rod 4.5 kw to allow warming of products.
- Built-in Gundfo Pump, stainless steel coil, digital thermostat
- 87.3 gallon (330 L.) insulated tank
- Refrigerant: R410A
- Water connection 1-1/4" with ball valve
- Dimension 39.4" x 39.4" x 66.2", weight 660 lb.

SKU #307-181 \$17,500.00

Chilly Max 90 with Heating

Compact & efficient small chiller for cooling & heating applications.

- Capacity 3 ton (36,508 BTU), Scroll compressor
- Electrical: 1-phase or 3-phase, 230 V. 60 Hz.
- Cooling water temperature from -14 F (-10 C) to 77 F (+ 25 C)
- Equipped with a heating-rod 3.0 kw (4.4 amp) to allow warming of products.
- Built-in Gundfo Pump, stainless steel coil, digital thermostat
- 8 gallon (30 L.)insulated tank
- Refrigerant: R410A
- Water connection 3/4" with ball valve
- Dimension 40" x 32" x 39", weight 350 lb.

1-phase SKU #307-90A \$9,995.00

Chilly 45

Compact & efficient small chiller for all cooling applications. Chiller is equipped with low temperature setting for crashing & cold stabilization. Easy to set up and equipped with pump control for automatic shut-off when set temperature is reached.

- Capacity 1.28 ton (15,354 BTU), Scroll compressor
- Electrical: 1-phase 230 V. 60 Hz.. 14 amp.
- Cooling water temperature from -14 F (-10 C) to 77 F (+ 25 C)
- Built-in Pump, stainless steel coil, digital thermostat.
- 8 gallon (30 L.)insulated tank
- Built-in pressure switch, chiller shuts-off pump when set temperature is reached.
- Refrigerant: R410A
- Water connection 1/2" with ball valve
- Dimension 40" x 32" x 26", weight 212 lb.

SKU #307-45 \$5,295.00

PEX tubing

PEX tubing ID 3/4" with a layer 1/2" foam insulation surrounding the tubing to reduce installation time and reduce cost. PEX tubing is flexible, durable and corrosion-resistant, designed for plumbing heating & cooling application.

- ID 3/4" x 100 ft. coil (OD 2")
- Insulation: thickness 1/2"
- Max. Temperature: + 200° F
- Hydrostatic rating: 200° F at 80 psi.

SKU#788-34 \$359.00

Johnson Controls A419 Tank Temperature Controller

Tank temperature controller is single stage electronic temperature control with a single-pole, double-throw output relay. Controller with NEMA 1 enclosure and feature a lockable front-panel touchpad for set up and adjustment and a liquid crystal display for viewing.

Features:

- Supply voltage: 120 or 240 VAC
- Range: -30°F to 212° F (-34 to 100° C)
- Power Consumption: 1.8 VA max. Easy to ready front panel liquid crystal display.
- Wide temperature differential adjustment range 1 to 30°F. or C. Adjustable anti-short cycle delay.
- Switch-activated temperature offset function.
- High impact thermoplastic NEMA 1 enclosure.. Lockable front panel touchpad.

SKU #6034 \$64.00

Johnson Controls Digital Thermostat Controller

Sturdy compact electronic thermostat, designed to override on-board refrigerator thermostats and provide accurate temperature control outside the range of the on-board thermostat. Applications include control of cooler and freezers.

Features:

- Temperature Range: - 30° to 220° F.
- 6 ft. extension cord with plug. Easy-to-read LCD display
- Easy to configure cooling applications.
- 6.5 ft. sensor leads. Lockable front panel touchpad
- Voltage 120V / 240 V. input. Enclosure Type: NEMA 1. Differential 1° to 30° F.

SKU #2441 \$79.00

Johnson Controls Manual Thermostat Controller

Easy to use and easy to install 110 V. thermostat control, include 8'cord with sensor. A single-stage cooling controls with single pole, single-throw switches that open on temperature drop. Designed to override on-board refrigerator thermostats and provide accurate temperature control outside the range of the on-board thermostat.

Features:

- Temperature Range: - 30° to 220° F.
- Operating Temp. Range: - 20° to 140° F.
- Voltage 120V / 240 V. input. Enclosure Type: NEMA 1
- Stages: one. Resistive 15 A / 8A. Differential 1° to 30° F.

SKU #2444 \$59.00

Ranco Temperature Control

Easy to use and easy to install 110 V. controls for tank temperature control, includes 8' cord with sensor.

Electrical cable is not included.

Features:

- Temperature Range: - 30° to 220° F.
- Operating Temp. Range: - 20° to 140° F.
- Voltage 120V / 240 V. input
- Enclosure Type: NEMA 1 or NEMA 4X (please select)
- Stages: one. Resistive 15 A / 8A
- Differential 1° to 30° F.

SKU #6035	NEMA 1 model	\$75.00
SKU #6037	NEMA 4X model	\$139.00

G.W. Kent Temperature Controller

Easy to use and easy to install tank temperature controller for every tank.

Features:

- Microprocessor based temperature controller for tank cooling and heating control .
- 24 V. power supply
- New improved model with display of tank temperature and set value temperature
- Sanitary designed for beverage and food processing, water-tight and can withstand humidity and harsh environment
- New design with stainless hook and 12 ft. of cable and sensor, controller can be placed in an easy to reach area and simply place sensor in thermometer well
- Easy switch from C to F reading. Password protection for access

Food Grade Heat Sink Compound

Heat Sink compound is applied to electronic devices for heat transfer which is located in and around food processing area. A non-reactive, silicone, thermally conductive food grade thermo grease with high thermal conductivity and low thermal resistance in a soft non-flowable consistency. This product is formulated with FDA approved ingredients and is acceptable as incidental food contact for use.

- NSF HI approved.
- 8 oz. Jar
- Operating temperature range -55° - 205° C

SKU #4569 \$43.00 / jar.

Digital Sanitary Pressure Gauges

Designed specifically for monitoring critical pressure applications in food and beverage industries. Meets 3-A sanitary standard.
Specifications:

- Accuracy: +0.2% Complies with ASME B40.7-1998
- Repeatability: + 0.06%
- Process Temp: 25° to 260° F (-4° to 127° C)
- Display: LCD with 0.9" height.
- 1-1/2" Tri-clamp connection. 2" TC available with special order.
- Rated: NEMA 4X for wash-down
- User programmable via simple operator interface.
- 2 year warranty.

Micro-Oxygenation Carbonation Stone Assembly

Sanitary designed for tank mounting, with built-in check valves and pipe extension. The most efficient system on the market. Submersing porous body diffuses CO2 gas directly into liquid to create carbonation or micro-oxygenation. Using carbonation, it is possible to remove excessive quantity of dissolved air. Small quantity of unabsorbed gas passing up through liquid and being relieved from top of the tank carries off the undesirable air. Diffusing stone is 316L stainless steel with 1" OD x 8" long and 2 micron porosity. Sanitary design and construction, the whole assembly can be taken apart for cleaning and diffusing stone can be replaced if clogged.

- Diffusing stone is 316 stainless steel 1" OD and 2 micron rating.
- Assembly consist 8" extension into tank and a check valve.
- Tank connection is 1-1/2" TC.
- Gas connection is 1/4" NPT female.

Item	Carb. Stone	Total Length	Connection	SKU	Price
8" Carbonation Stone Assembly	Dia. 1" x 8" L.	18-1/2"	1.5" TC	85-50	\$275.00
12" Carbonation Stone Assembly	Dia. 1" x 12" L.	22-1/2"	1.5" TC	85-52	\$345.00
Replacement 8" stone	OD 1"	8"		85-54	\$115.00
Replacement 12" stone	OD 1"	12"		85-55	\$145.00
Replacement Seal Kit				85-50A	\$15.00

Inline Carbonation System

Heavy duty, sanitary built micro-oxygenation or carbonation system.

- Diffusing stone is 316 stainless steel 1-1/2" OD x 4" length
- 2 micron rating.
- Built-in sight glass
- Connection is 1-1/2" TC.
- Gas connection is 1/4" ball valve with a hose barb

SKU #85-45A \$345.00

Electromagnetic Flow Meter

New generation, extremely accurate and proven design electromagnetic flowmeter from Anderson Instrument, utilizing sophisticated signal processing and circuit design to provide superior performance in a standard integral design that simplifies installation and start up. Measurement is unaffected by changes in viscosity, density or temperature. Flowmeter offers one scaled pulse output as standard, with an additional analog output as an option. Equipped with a display, access to two resettable totalizers and a rate indicator.

Specifications:

- Maximum Cleaning temperatue 250° F.
- Accuracy: +/- 0.25%
- Maximum pressure 145 psi. Minimum pressure 7 psi
- Material: housing 304, electrodes 316L.
- Remote with cable optional available.

Item	Flow Rate	Connection	SKU	Price
Electromagnetic Flow Meter 1"	0.8 - 80 gpm	1.5" TC	985-4	\$3,795.00
Electromagnetic Flow Meter 1-1/2"	1.3 - 130 gpm	1.5" TC	985-5	\$3,895.00
Electromagnetic Flow meter 2"	3 - 300 gpm	2" TC	985-6	\$4,195.00

Turbine flow meter is used to measure fluid passed through the meter housing, and causes a rotor to spin with a rotational speed equivalent to the velocity of the fluid. Durable 316L stainless steel 2 piece design with rulon sleeve bearing, provides accurate reading. Rater/Totalizer is included with all meters. A 50 mesh screen gasket is recommended with turbine flow meter for accuracy.

Sanitary Turbine Flow Meter

Sanitary design and construction, meets 3-A sanitary standards and includes rater totalizer display in gallon. (display in liter special order only).

- Accuracy: +/- 0.5%
- Maximum temperatue 250° F
- Maximum pressure 115 psi.
- 316 stainless steel, 3A

Item	Flow Rate	Turbin Size	Connection	SKU	Price
Sanitary Turbine Flow Meter 1-1/2"	13 - 130 gpm	1-1-1/2"	1.5" TC	985-1	\$2,995.00
Sanitary Turbine Flow meter 2"	25 - 250 gpm	2"	2" TC	985-9	\$3,095.00

GPI Sanitary Turbine Flow Meter

Sanitary 3A turbine flow meter with rater/totalizer to provide flow rate in gallons and liters on display. A 50 mesh screen gasket is recommeded with flow meter.

- Accuracy: +/- 0.5% accuracy,
- Maximum temperatue -100° to 225° F
- Material: Housing, rotor & shaft in 316 L. stainless steel.
- 3A approval rated, NEMA 4
- Can be used for CIP or SIP

Item	Flow Rate	Turbine Size	Connection	SKU	Price
GPI Sanitary Turbine Flow Meter 1-1/2"	17 - 177 gpm	1-1/2"	2" TC	984-15	\$1,995.00

GPI Industrial Turbine Flow Meter

Compact, cost effective and accurate turbine flow meter with rater/totalizer to provide flow rate per minute and total flow volume.

- Accuracy: +/- 0.75% accuracy,
- Maximum temperatue -40° to 140° F
- 316 stainless steel housing, shaft Tungsten Carbide, rotor PVDF
- NEMA 4

Item	Flow Rate	Turbine size	Connection	SKU	Price
GPI Industrial Flow Meter 1"	5 - 50 gpm	1"	1.5" TC	984-3	\$795.00
GPI Industrial Flow Meter 1-1/2"	10 - 100 gpm	1-1/2"	2" TC	984-4	\$995.00
GPI Industrial Flow Meter 2:		2"	2.5" TC	984-5	\$1,390.00

Econo Turbine Flow Meter

Cost effective and accurate turbine flow meter with rater/totalizer to provide flow rate per minute and total flow volume.

- 316 stainless steel
- Accuracy: +/- 1.0% accuracy
- Maximum temperatue -100° to 300° F
- Maximum pressure 600 psi.

Item	Flow Rate	Turbin Size	Connection	SKU	Price
Econo Turbine Flow Meter 1"	0 - 50 gpm	1"	1.5" TC	985-8	\$895.00
Econo Turbine Flow meter 1-1/2"	15 - 180 gpm	1.5"	1.5" TC	985-9	\$995.00

Quick Disconnects

Designed for general purpose hydraulic service, suitable for use with liquids, gas and vacuum. Available in 304 stainless steel or brass. Quick disconnect's socket and plug end are NPT female and seal EPDM. Two piece (socket & plug) sold as set.

Stainless Steel Quick Disconnects	SKU	Price
Quick Disconnects 1/4" NPT	6032-6	\$39.00
Quick Disconnects 3/8" NPT	6032-7	\$49.00
Quick Disconnects 1/2" NPT	6032-8	\$69.00
Quick Disconnects 3/4" NPT	6032-9	\$89.00
Quick Disconnects 1" NPT	6032-1	\$149.00

Brass Quick Disconnects	SKU	Price
Quick Disconnects 1/4" NPT	6033-1	\$27.00
Quick Disconnects 3/8" NPT	6033-2	\$30.00
Quick Disconnects 1/2" NPT	6033-3	\$42.00
Quick Disconnects 3/4" NPT	6033-4	\$59.00
Quick Disconnects 1" NPT	6033-5	\$79.00

Streamline Wash Down Mixing Station

Hot & cold water wash down mixing units and hose station, bronze construction with temperature gauge and globe valve, inline check valve and stainless steel hose rack. Designed as a wall mount unit.

- Maximum operating temperature 200° F
 - Maximum working pressure 150 psi
 - Washdown hose & spray nozzle are not included
- SKU #2544 \$495.00

Streamline Wash Down Spray Nozzle

Washdown spray nozzles designed and constructed to withstand the daily demand and servere condition in large industrial food processing plants.

- Maximum recommended operating temperature 200° F
 - Maximum working pressure 150 psi
 - Flowrates: 5 -7 gpm under normal conditions (50 - 80 psi) or 10 gpm at 150 psi
 - Hose adaptor 3/4" included with nozzle.
- SKU # 2543 \$96.00

Strahman Wash Down / Mixing Station

Wash down mixing units and hose stations for hot and cold water are designed to thoroughly mix hot and cold water in any desired proportion. A reliable cleaning tool for food and beverage processing industries, where fast and effective cleanup is necessary. Made of bronze, equipped with a dial type gauge that accurately indicates the wash water's temperature, also features a specially designed blending chamber for hot and cold water blending. Wall-mounted design, with maximum operating temperature 200 F and maximum working pressure 150 psi. Washdown hose and spray nozzle are not included.

SKU #2537 \$1295.00

Strahman M70 Spray Nozzle

Strahman spray nozzle M-70 for Wash down mixing units-hose stations. Combines modern & innovative engineering with premium quality parts to build hose nozzles strong enough for industrial and food applications.

- Features:**
- Maximum recommended operating temperature 200 F
 - Maximum working pressure 150 psi
 - Flowrates: 5 -7 gpm under normal conditions (50 - 80 psi) or 10 gpm at 150 psi
 - Hose adaptor and Swivel pro for hose is not included, available for purchase.
- SKU #2537A \$159.00

Swivel Hose Adaptor

For connection to spray nozzle to prevent hose kinks, made of stainless steel.

1/2" Swivel Hose Adaptor	SKU #2537F	\$105.00
3/4" Swivel Hose Adaptor	SKU #2537B	\$110.00

Brass Garden Hose Adaptor

Brass hose adaptor for connection to spray nozzle. Fits washdown hose 3/4" ID.

SKU #85-09	\$5.75
------------	--------

Wall-mounted Hose Racks - 304 Stainless Steel

Stainless steel wall-mounted hose racks help keep hose neatly coiled and in place.

SKU #7966	\$185.00
-----------	----------

Goodyear Sani-Wash Food Washdown Hose

An economical hose for hot water washdown up to 200°F cleanup in food processing plants, winery, brewery, dairies, packing houses, and bottling plants. Price is for 50 ft. length. Special order for 100 ft or longer length, lead time 3 - 5 days.

CONSTRUCTION:

- TUBE: Versigard® synthetic rubber
- COVER: White Versigard® synthetic rubber with Microban® product protection
- REINFORCEMENT: Spiral textile reinforced
- TEMPERATURE: -40°F to 200°F (-40°C to 93°C)

Item	I.D.	O.D.	Pressure Rating	SKU	Price
1/2" Good Sani-Wash Hose	1/2"	0.84"	300 psi max	7965	\$95.00 / 50 ft. coil
3/4" Goodyear Sani-Wash Hose	3/4"	1.17"	300 psi max	7968	\$125.00 / 50 ft coil
1" Goodyear Sani-Wash Hose	1"	1.47"	300 psi max.	7969	\$169.00 / 50 ft coil

Hot Water Hose

Multiple textile spirals reinforced hot water hose ID 3/4" with garden hose coupling assembled on 2 ends. Withstands temperature up to 200°F

Item	I.D.	Length	Pressure Rating	SKU	Price
Hot Water Hose	3/4"	25 ft.	500 psi max	7963	\$179.00
Hot Water Hose	3/4"	50 ft.	500 psi max	7964	\$279.00

Food Grade Machine Oil Spray

A heavy duty sanitary lubricant with high load bearing, low friction properties. This sanitary lubricant is highly resistant to separation or bleed. It will not dry or gum on equipment. It provides a protective coating to all metal parts despite moisture.

- Conform to NSF HI for use in food processing plants.
- All ingredients are FDA approved.
- Colorless, odorless and non toxic.
- Non staining, lubricant, spray upright or inverted. 11.25 oz. Spray
- Applications: beverage equipment, pumps, kegs, bottling equipment, valves, gasket & seals.

SKU #4555	\$14.50
-----------	---------

Food Grade Lubricant

A heavy duty sanitary lubricant with extended performance, low friction properties. This lubricant is designed for longer lubrication intervals, eliminating downtime to re-lubricate the equipment. This lubricant wears evenly on all moving parts, preventing metal to metal contact and equipment damage. It will not dry or gum on the equipment and is highly resistant to separation or bleed.

- Conform to NSF HI for use in food processing plants.
- All ingredients are FDA approved.
- Applications: beverage quipment, pumps, kegs, bottling equipment, valves, gasket & seals.

SKU #4557	\$4.50 / 4 oz. tube
-----------	---------------------

Food Grade Lubricant Cartridge

A heavy duty sanitary lubricant with high load bearing, low friction properties. It provides a protective coating to all metal prtcs despite moisture.

- Conform to NSF HI for use in food processing plants.
- All ingredients are FDA approved.
- 12 oz. cartridge to fit gease gun.

SKU #4560	\$12.50 / 12 oz. cartridge.
-----------	-----------------------------

Food Grade Machine Oil

A light duty sanitary oil lubricant for all food & beverage processing machine parts. Food grade machine oil contains no animal or vegetable fats and is absolutely neutral. It will not turn rancid, contaminate or taint food products.

- Conform to NSF HI for use in food processing plants.
- All ingredients are FDA approved.
- Odorless, tastelss, colorless and non-toxic.

SKU #4566	\$129.00 / 2.5 gallon jar.
-----------	----------------------------

Food Grade Silicone Oil

Silicone Oil is a sanitary spray lubricant, it minimizes cleanup time and sticking problems on food/ beverage packaging and processing equipment. It can be used as a release agent on plastic/ rubber parts. This versatile lubricant can be used as an anti-rust film on equipment.

- Conform to NSF HI for use in food processing plants.
- All ingredients are FDA approved.

SKU #4565	\$149.00 / 1 gallon jar
-----------	-------------------------

Food Grade Silicone Spray

A heavy duty sanitary spray lubricant that minimizes cleanup time and sticking problem on food packaging and processing equipment. This versatile lubricant can be used as an anti-rust film on equipment.

- Conforms to NSF HI for use in food processing plants.
- All ingredients are FDA approved.
- Colorless, odorless and non toxic.
- Non staining, lubricant, spray upright or inverted. 11.25 oz. Spray
- Applications: grain mills, filling machines, pumps, valves and fittings.

SKU #4558 \$16.50

Food Grade CIP-Film

Sanitary lubricant develop for CIP system, can be washed off using mild detergent and rinse with hot water.

- Conform to NSF HI for use in food processing plants.
- All ingredients are USDA approved.
- Tasteless, odorless and non toxic. 4 oz. tube

SKU #4554 \$3.95

Food Grade Silicone High Temperature Sealant

- FDA, USDA and NSF approved
- Temperature: -62° F to 500° F.
- 2.8 oz. tube.

SKU #4563 \$5.95

Food Grade Silicone Sealant

- FDA, USDA and NSF approved
- Temperature: -62° F to 350° F.
- 2.8 oz. tube.

SKU #4564 \$4.95

Food Grade Anti-Seize Compound

Prevents galling, seizure, wear and friction on fasteners, threads and joints

- NSF H1 registered.
- Non-toxic, white color. 8 oz. bottle.
- Taste and stain free and Kosher.

SKU #4559 \$19.00

Eyewash Station

Inexpensive plastic mounting station with 2 bottles of sterile solution.

- Two 16 oz. bottles of sterile solution with a smooth flange for safe and easy use.
- Polystyrene station can be mounted with screw or foam tape.
- For acid and alkaline burns only.

SKU #4603 \$56.00

CitriSurf 77 Plus Rust Removal

A high quality blend of chemicals formulated for rust removal and passivation of stainless steel.

- 22 oz. trigger spray bottle
- CitriSurf is a citric acid based material, safe to use.
- Soak or leave moist with CitriSurf 77 Plus for 15 - 30 minutes at room temperature.

SKU #4521 \$19.00

CitriSurf 2210 Gel for Stainless Steel Passivation

A high quality blend of chemicals formulated gel for passivation of stainless steel. Easy to apply gel form on weld joints or equipment surface, using brush to apply

- Coverage is about 250 sq. ft. per gallon, contact time 30 minutes at room temperature.
- CitriSurf is a citric acid based material, safe to use.
- NSF listed A3 137374.

SKU #4523 1 gallon \$39.00

SKU #4524 5 gallon \$169.00

CitriSurf 3050 Liquid for Stainless Steel Passivation

A high quality blend of chemicals formulated for passivation of stainless steel. Liquid for application using CIP spray ball on tank.

- Contact time 30 minutes at room temperature.
- CitriSurf is a citric acid based material, safe to use.
- NSF listed A3 137373.

SKU #4525 5 gallon \$189.00

Lightweight & sturdy, hygienically designed for food and beverage industry. Injection molded white color polypropylene or nylon, meets FDA and UDSA requirements. Chemical & corrosion resistant, tolerates temperature - 22F to 176 F.

Hygienic Paddle

One-piece injection molded paddle scraper with handle. Paddle blade 6” x 13” and 52” length. SKU #298-7 \$69.00

Hygienic Rake with handle

Rake 7.5” x 8” with screw on telescopic handle 62” to 113”. SKU #298-3 \$99.00

Hygienic Fork with handle

Blade 10.5” & 49” length with molded handle. SKU #298-4 \$95.00

Hygienic Telescopic Handle

Handle length 62” min. and 113” max. SKU #298-15 \$69.00

Ergonomic Hand Brush

Ergonomic hand brush designed to fit your hand and the job at hand for maximum efficiency and manufactured for durability. Spread angle bristles, 5” x 13.5”. SKU #298-10 \$27.00

Hygienic Tank Brush with handle

Tank brush 5.5” x 8” with polyester bristles and telescopic handle. 62” to 113”. SKU #298-9 \$99.00

Hygienic Hoe with handle

Hoe 8” x 11” with screw on telescopic handle 62” to 113”. SKU #298-2 \$99.00

Hygienic Sieve Shovel with handle

Ergonomic design reduces strain when bending and lifting. Blade 13.5” x 51”. Slot size is 0.5” x 3” allowing liquid to drain. SKU #298-5 \$79.00

Hygienic large Blade Shovel with handle

Ergonomic design shovel, blade 13.5” x 51”. SKU #298-6 \$85.00

Wine Transfer Hose

Novaflex EPDM Hose with Sanitary Hose Ends

Designed to handle beer, wine or food transfer and other non-oily liquid food stuffs. Odorless & tasteless with ultra smooth microbe resistant tube. Hose will meet application that demands flexibility and ruggedness.

- Construction:
- Tube: FDA UHMW odorless and tasteless (FDA, USDA compliance)
 - Reinforcement: Multiple piles of polyester with helix wire
 - Cover: Grey EPDM
 - Temperature: -40 F to 225 F (CIP to +248 F)
 - Vacuum up to 29” Hg.
 - Pre-cut hose assembled with 316 stainless steel hose adaptor and crimped on both ends of hose. Ready for service.

Silicone Hose

Platinum cured silicone meets USP class VI requirement, ultra-flexible, sterilizable by autoclave, CIP & SIP. No taste or odor imparted, non-toxic, non pyrogenic and manufactured in clean room in USA. Silicone Hose resists temperature extremes and ozone.

- Platinum cured medical grade silicone
- Temperature: -10° F to + 400° F
- Sold in 50 ft. length only.

SKU #798-1 ID 1/2" x 50 ft. \$225.00
SKU #798-2 ID 3/4" x 50 ft. \$425.00

Braided Silicone Hose

- Tube: Platinum cured silicone
- Cover: Platinum cured silicone
- Reinforcement: polyester braid
- Temperature: -10° F to +400° F.
- Sold in pre-cut length 50 ft.

Item	I.D.	O.D.	Pressure Rating	SKU	Price

MACX Bin 31

MACX bins are built to meet the most rigorous demands in food processing and agricultural applications. These high-impact resistant HDPE structural foam, fixed wall containers are rugged and recyclable. They meet USDA.HACCP standards for food handling and can be steam cleaned. MACX bins are temperature resistant UV resistant and can be stacked up to 10 high.

Specifications:

- Ext. Dimensions: 48" x 40" x 31"h
- Capacity: 1500 lb.
- Volume: 20.4 bushel, 190 gallon
- 4-way forklift opening.

MACX Bin 31	SKU #29-31	\$295.00
Lid	SKU #29-31A	\$95.00

Lab Instruments & Supplies

DuJardin-Salleron EBULLIOMETERS

French made ebulliometers preferred by vintners all over the world. Easy and accurate measuring of alcohol content in wine with an ebulliometer. The test is based on the difference in boiling points of water and alcohol. Ebulliometer will not give an accurate reading for wines with high residual sugar, distillation method is needed. Complete ebulliometer kit with alcohol lamp and packed in wood case. SKU #2674 \$895.00

Refractometer

For measuring sugar content with automatic temperature compensation 10° - 30°C. No tools needed for calibration, ideal for field work. Premium quality and best price. Packed in protective plastic case.

Feature:

- Temperature compensation 10° - 30°degree C
- Range: 0 - 32 brix ATC
- Resolution: 0.2%
- Accuracy: 0.2%

Refractomer	SKU	Price 1 -9 pcs	Price 10 + pcs.

Atago PAL 1 Pocket Digital Refractometer

Light & compact for field applications, with automatic temperature compensation. High water resistance. System: Optical refraction critical angle detection.

Specifications:

- Range: Brix 0.0-53.0%
- Resolution: 0.1%. Accuracy: +0.2%
- Temp Comp: 10° - 40°C
- Measuring Time: 2 seconds

Catalog #2733 \$295.00

Hanna Refractometer

Best valued digital brix refractometer. Easy measurement, just place a few drops of the sample in the well and press the READ key.

Features:

- 1.5 second measurement time.
- Automatic temperature compensation (ATC).
- Easy set up and storage. Battery operated.

Specifications:

- Range: 0.0-50.0% Brix
- Resolution: 0.1% Brix.
- Accuracy: +0.2% Brix.

Catalog #2732 \$175.00

Hanna Edge pH Meter

Edge is thin and lightweight, measuring just 1/2" thick and weighing less than 9 ounces. Edge has an incredibly wide viewing angle, 5.5" LCD and a sensitive capacitive touch keypad.

FEATURES:

- Thin, Lightweight Design
- Multiparameter (ability to measure pH, EC or DO)
- pH Electrode Monitoring Technology (Sensor Check and Cal Check)
- Multiple Calibration Points
- Built-in Temperature Sensor on all Electrodes
- Log on Demand
- Large, easy to read LCD
- Capacitive Touch
- Dual USB ports
- GLP feature
- Rechargeable Battery

Model HI 2020. Excellent quality at great value.
SKU #2731 \$375.00

to

Hanna Edge D.O. Meter

Specifications:

- DO Range : 0.00 to 45.00 mg/L (ppm) 0.0 300.0% saturation
 - DO Resolution 0.01 mg/L (ppm) 0.1% saturation
 - DO Accuracy @ 25°C/77°F ±1.5% of reading ±1 digit
 - DO Calibration Points 1 point slope calibration with probe in water saturated air (100%) 1 point offset calibration in HI 7040 solution (0%)
 - DO Temperature Compensation Automatic: 0.0 to 50.0°C; 32.0 to 122.0°F
- SKU #2675 \$575.00

Dissolved Oxygen Meter for Wine

Extended range dissolved oxygen meter can measure DO in bottled wine as well as storage tanks. It has automatic compensation capabilities for conditions that can impact the accuracy of reading such as temperature, altitude, humidity and salinity. Automatic calibration Includes wine spot check DO probe with 3 ft. cable, 2 spare membranes and electrolyte solution and packed in carrying case.

SKU # 2676 DO meter HI 9146W \$699.00

www.gwkent.com

Specifications:

- pH Range -2.00 to 16.00 pH
- +/-1000.0 mV for pH
- pH Resolution 0.01 pH, 0.001 pH
- 0.1 mV
- pH Accuracy @ 25°C/77°F ±0.01 pH, ±0.002 pH
- ±0.2 mV
- pH Calibration Points 5 – Extended mode
- 3 – Basic mode
- pH Temperature Compensation Automatic: -20.0 to 120.0° C; -4.0 to 248.0° F
- Temperature Range [°C/°F] -20.0 to 120.0°C; -4.0 to 248.0°F

www.gwkent.com

Hanna pH Meter HI 2222W

Advanced microprocessor-based featuring automatic buffer recognition at pH 7 and 3. Meter is designed to calibrate to proper pH range of 2.5 to 3.5 with an accuracy of +/- 0.0002. Special electrode resists the sensor clogging effects of wine must, also detects when electrode needs cleaning and gives a warning during calibration. Logging of up to 100 samples shown right on the display. Price includes pH electrode, magnetic stirrer, buffer solution, calibration solutions, cleaning and storage solutions. Excellent quality at great value.
SKU #2734 \$525.00

pH tester pHEP 5

Waterproof tester for pH measurement with replaceable electrode and stainless steel temperature probe for fast and precise measurements. Dual-level LCD display simultaneous display of measurement reading & temperature. HI 98128
SKU #2614 \$99.00

Specifications:

- Range: pH -2.00 to 16.00 pH
- Range Temperature: 23.0 to 140.0°F
- Resolution pH: 0.01 pH
- Resolution Temperature: 0.1°F
- Accuracy: pH ±0.05 pH
- Accuracy Temperature : ±1°F
- pH Calibration: automatic
- Temperature: automatic compensation

Photometer for Determination of Tartaric Acid in Wine

A portable photometer, micro-processor meter for measuring tartaric acid in wine. A built-in auto-diagnostic feature optimizes the optical condition and ensures the most precise reading possible. An advanced optical system, built around a specialized tungsten lamp and a narrow band interference filter at 525 nm affords accuracy and repeatability. With a few simple steps, winemakers can quickly and accurately measure tartaric acid content. Hanna HI 83748-01.
SKU #2710 \$495.00

Turbidity Meter & Bentonite Monitoring in Wine

Visual examination is not the most reliable way to measure clarity of wine, the use of a scientific instrument is required. A turbidity meter allows winemaker to make adjustments during fermentation and filtration. Hanna Instruments has developed the HI 83749 meter to accurately measure the haze (Turbidity) caused by Protein and Microbial contamination and is an invaluable tool in the monitoring of Bentonite addition. Optical system consists of a tungsten light source and a narrow band filter of 525 nm.
SKU #2679 \$795.00

© G.W. KENT, INC. JAN. 2016

Photometer for Residual Sugar Measurement in Wine

Photometer for measuring residual sugar in wine is engineered with convenience and simplicity in mind. A refined interface minimizes the number of steps from sample preparation to analysis. Equipped with a specialized tungsten light source and a narrow band interference filter at 610 nm, this instrument provides immediate results that can facilitate decisions relating to harvest time as well as predicting alcohol potential during the fermentation process and determining total concentration of residual sugar in wine. Hanna HI 83746-01.
SKU #2713 \$595.00

mini Titrator for the Determination of Titratable Total Acidity

An affordable, easy to use microprocessor-based automatic titrator that is simple and provides accuracy and repeatability. This instrument is supplied with a preprogrammed analysis method designed for total titratable acidity measurement in wine. It performs automatic analysis, all necessary calculations and assures to the user a simple and effective interface. The instrument features a powerful and effective built-in algorithm to analyze the shape of the pH electrode response and to determine the reaction completion. Supplied complete with reagent set for 20 titrations, automatic pipette, beaker, pH electrode, temperature probe, stir bar, syringes, cleaning solution and instruction manual.

Specifications	
Range:	0.0 to 25.0 g/L of tartaric acid
Resolution:	0.1 g/L
Accuracy:	5% of ready
Method:	Acid base titration method
Principle:	End-point titration
pH Calibration:	1 pt. in selected end point: 7.0 pH or 8.2 pH
Sample Volume:	2 mL
Temperature:	Automatic Temperature compensation 0 - 100° C
Pump Volume:	0.5 mL / min
Stirring Speed:	1500 rpm

mini Titrator for Free & Total Sulphur Dioxide

An affordable, easy to use, microprocessor based automatic titrator, with a simple and reliable peristaltic pump that ensures high dosing repeatability. The instrument has a pre-programmed analysis method designed for free and total sulphur dioxide measurement on wine samples. By simply pressing the START / STOP button, the instrument will automatically make the titration up to the equivalence point. The result is immediately displayed in convenient units then the instrument is ready for another titration. Supplied complete with reagents set for 20 titrations, beakers, ORP probe, stir bar, syringe, cleaning solution and instruction manual.

Specifications	
Range:	0 to 400 ppm SO2
Resolution:	1 ppm
Accuracy:	5% of ready
Method:	Ripper titrimetric method
Principle:	Equivalence point REDOX titration
Sample Volume:	50 mL
Pump Volume:	0.5 mL / min

How safe is your cellar, walk-in cooler and storage area? How do you know if your dispense gas is leaking?

What happens when carbon dioxide levels increase?

- 2% you may feel drowsy.
- 3% gas has a slightly narcotic effect, blood pressure rises and hearing can be impaired.
- 5% breathing will become difficult and you may feel confused.
- Over 5%, unconsciousness occurs.

Carbon Dioxide Alarm / Analyzer

Carbon Dioxide is a toxic gas, colorless, odorless and undetectable by human senses. Small leaks could build up to dangerous levels as CO 2 is heavier than air. Our CO 2 analyzer is fitted with both audible and visual alarms. When excess levels of CO 2 are detected an alarm is triggered allowing you to move to a safe place.

Analox is fitted with audio visual alarms, when excess levels of carbon dioxide are detected an alarm is triggered. At dangerous levels a second alarm warns of the need to immediately evacuate the area, until the monitor returns to safe mode.

Specifications:

- Range: 0.1% - 5%
- Repeatability: 2% of full scale.
- Technique: Infra red absorption.
- Response Time: <45 seconds.
- Operating Temperature: -5 to 45 C.
- Power: 110 V.

SKU #2698	Analox 50 (1 sensor & 2 relay)	\$645.00
SKU #2697	Analox 60 (1 central display, 1 sensor & 2 alarm repeater)	\$668.00

Aspida Portable CO 2 Alarm / Analyzer

A robust personal CO 2 monitor which can be worn on a belt or even wall mounted CO 2 safety system. Offering audio/visual alarms, datalogging and a man down alarm for loan workers. The Aspida is an affordable, easy to operated CO 2 monitor and is ideal for ensuring safety in the areas where the gas is piped or stored such as cellar, brewery or fast food restaurant.

SKU #2699 \$869.00

Hydrometers

Precision hydrometer for commercial use. Hydrometers are calibrated to show the percentage of sucrose by weight at 20° C (68° F.) The data of the National Bureau of Standard are used.

Wine Lab Testing Glassware

Lab testing glassware apparatus only. Lab glassware stand and large clamp is not included.

Volatile Acid Still

Modified from standard Cash Still, featuring an aspirator pump to remove the spent sample. This new still saves time, distilled water and repairs. Distillation is carried out in the same manner as with Cash Still, but instead of draining the entire boiling chamber of its distilled water to remove the spent sample after distillation, the aspirator pump sucks out the sample quickly and simply. Entire operation goes about twice as fast and eliminates contamination by previous sample.

Apparatus for SO 2 Determination by Aeration-Oxidation

Uses aeration-oxidation method of determining free, bound and total SO 2 in wine. This method has been shown to be more accurate for free SO 2 and is preferred for total SO 2. Compared to Ripper Method; several problems can be avoided. That includes the blue starch endpoint of titration can be obscured by color of red wine; SO 2 can volatilize and escape during titration and the iodine can be reduced by non-sulfite compounds.

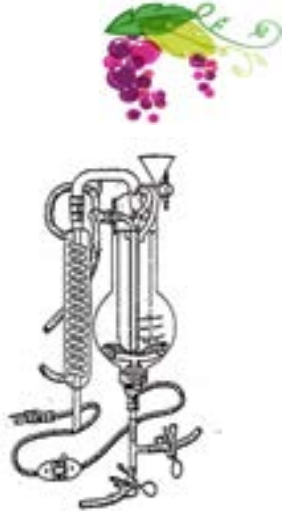

Macrodistillation

Apparatus for Alcohol Separation

An economical, practical and simple instrument for alcohol separation for the determination of ethanol.

Item	SKU	Price
Volatile Acid Still	2670	\$750.00
Macrodistillation Apparatus for Alcohol Separation	2672	\$325.00

Dial Thermometer

- 2" dial face, stainless steel stem 9".
 - Temperature range 0 - 200° F.
- SKU #2603-1 \$5.00 each

Glass Thief

Glass thief straight, diameter 3/4" x 11-3/4" L.
Pack 10 per box.
sku #2983-2 \$39.00 / case of 10.

Glass Air lock

SKU #2608-9 \$5.00 each

Aroma Pot Still

Capacity 150 liter to 500 liter, equipped with ball shape hat, parallel mounted column with 3 to 10 rectification floors and amplifier. 8 tube stainless steel heat exchanger, stainless steel pipe cooling column. CIP system with spray balls in cooling column, pot still, hat and also in top & bottom column & amplifier. Two automatic thermostats for hearts and tails cuts. Discharge in 4" and flange for agitator. Water-bath insulation 1.18" and cover with stainless steel, steam jacketed.

Speedy Oil Vacuum Filling Machine

Stainless steel 4 spout filling machine with automatic shut-off and fill height adjustment. Machine will work with glass bottle from 0.25 liter to 5 liter capacity, with easy bottle height adjustment. Made of 304 stainless steel designed for oil, equipped with a vacuum pump and set up for filling.

SKU #6179-7 \$3,995.00

Spremoliva Centrifugal Oil Extracting Machine

A small and compact centrifugal system for extracting extra virgin olive oil, production rate of 22 lb. per hour. Sanitary construction, made of 304 stainless steel. Daily production of 150 lb. of olive. Machine extracts 70% to 85% of olive paste. Machine measures 33" x 20" x 45" H. Weight 350 lb.

SKU #6179-1 \$9,795.00

Customer Pick Up:

Please allow 24 to 48 hours of order processing time for pick up at our Ypsilanti warehouse.

Dock Hours: 9 am - 4 pm Monday - Friday

Driving Directions:

Our headquarter and warehouse is located 15 miles west Detroit Metro Airport, off I-94.

- Using I-94 West, exit #183 Huron Street, at exit ramp turn right, first building on the left.
- Using I-94 East, exit #183 Huron Street, turn left, first building on the left.
